Facility Name: Kansas Army Ammunition Plant

Facility Description: This action consists of the reissuance of an industrial process NPDES/Kansas Water Pollution Control wastewater discharge permit for operation of a portion of the land and munition production activities at the Kansas Army Ammunition Plant. This facility can continue production activities of the former Kansas Army Ammunition Plant that will include ammunition load/assemble/pack operations. The proposed permit contains limits for total suspended solids, oil and grease, RDX + HMX, TNT, whole effluent toxicity and pH, as well as monitoring for perchlorate, total phosphorus and effluent flow. Contained in the permit is a schedule of compliance requiring the permittee to continue implementation of the stormwater pollution prevention plan and to obtain the services of a laboratory or become KDHE-field certified for total residual chlorine and pH.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. Jackson, Topeka, to consider the adoption of certain proposed new regulations, certain permanent amendments to certain Kansas Department of Correc-

tions administrative regulations, and the revocation of certain Kansas Parole Board regulations.

The regulations proposed for permanent amendments are as follows: K.A.R. 44-5-115, 44-9-101 and 44-9-105.

The new regulations proposed are as follows: K.A.R. 44-9-107, 44-9-501, 44-9-502, 44-9-503 and 44-9-504.

At the same hearing, the proposed revocation of certain Kansas Parole Board regulations also will be considered, as follows: K.A.R. 45-100-1, 45-500-1, 45-500-2, 45-500-3 and 45-500-4.

This 60-day notice constitutes a public comment period for the purpose of receiving written public comments on the proposed amendments, new permanent regulations and revocations. All interested parties may submit written comments prior to the hearing to Linden G. Appel, Chief Legal Counsel, Kansas Department of Corrections, 4th Floor, Landon State Office Building, 900 S.W. Jackson, Topeka, 66612-1284. All interested parties will be given a reasonable opportunity at the hearing to present their views orally on the adoption of the proposed amendments and new permanent regulations. In order to give all parties an opportunity to express their views, it may be necessary to request each participant to limit oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed amendments, new regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Linden Appel at (785) 296-4508 or (785) 296-8443 (TDD), by fax at (785) 296-0014, or by e-mail at LindenA@doc.ks.gov.

Handicapped parking is located on the south end of Landon State Office Building, and the north entrance to the building, which is the public access entrance, is accessible to individuals with disabilities.

The amendments are proposed for adoption on a permanent basis. A summary of the proposed amendments and their economic impact follows:

K.A.R. 44-5-115. Service fees. This regulation is amended by adding references to house arrest or participants in the house arrest program to subsections of the regulation permitting imposition of monthly supervision fees, electronic and GPS monitoring, and other supervision services, as well as DNA exemplar collections. It is further amended to permit imposition of a service fee upon inmates participating in a batterers intervention program.

It is now anticipated, as further detailed in the department's economic impact statement also made a part of this filing, that inmates and offenders placed in the house arrest program will experience an average monthly fees obligation of \$202.30, and an annual cost of \$606.90 (assuming a three-month tenure on house arrest status).

For inmates participating in a batterers intervention program, it is now anticipated that they will experience an obligation of \$20.00 per month, and, on an annual basis, a cost of \$120.00 (assuming one completion of the entire six-month program within a 12-month period).

(continued)

K.A.R. 44-9-101. Definitions. This regulation is amended by adding a definition for house arrest, as well as for "postincarceration supervision," since offenders supervised on parole, conditional release or postrelease supervision also may participate in the house arrest program as a sanction for violation of their conditions of supervision. The term "prisoner review board" also is defined, since that body will be responsible for revocations of house arrest and postincarceration supervision on and after July 1, 2011, as the successor to the Kansas Parole Board under terms of Executive Reorganization Order No. 11-34.

No economic impact on offenders, the department, any other governmental agency or body, or private individuals in the public is now anticipated as a result of these amendments.

K.A.R. 44-9-105. Preliminary hearing for alleged violators. This regulation is amended by adding a reference to house arrestees as a category of supervised offender entitled to a preliminary hearing to determine if there is probable cause to believe that the offender violated one or more conditions of supervision. It is further amended to formally provide for amendment of condition violation charges at either the pre-hearing, or mid-hearing stage of a preliminary probable cause hearing, and to require that, in the event of such amendment, the offender be given due notice and opportunity to prepare for defense of the new or amended charge, subject to the offender's waiver of that right. The hearing officer is required to expressly take note of and rule upon any such amended or new charge in the written hearing decision. The regulation is also amended to conform it to current practice in regard to the location of probable cause hearings for offenders already transported to KDOC correctional facilities pending the preliminary hearing.

No quantifiable economic impact on offenders, the department, any other governmental agency or body, or private individuals in the public is now anticipated as a result of these amendments.

The new regulations are likewise proposed to be adopted on a permanent basis. A summary of the proposed new regulations and their economic impact follows:

K.A.R. 44-9-107. House arrest. This new regulation provides for detailed outline of sanctions and conditions to be imposed in the house arrest program through the issuance of an internal management policy and procedure (IMPP) issued by the Secretary of Corrections.

In addition to the impact upon inmates and offenders placed in the house arrest program as identified in the discussion of the proposed amendments to K.A.R. 44-5-115 above, it is now anticipated that the direct savings cost to the department, for every 10 inmates placed on house arrest for a one-year period, will be approximately \$146,000. Please see the department's economic impact statement also made a part of this filing for more details.

K.A.R. 44-9-501. General provisions. This new regulation provides a summary of the general workings of a due process procedure for revocations of conditional liberty interest statuses, specifically including house arrest.

No quantifiable economic impact upon offenders, other state agencies or private citizens is now anticipated as a result of this regulation.

K.A.R. 44-9-502. Final revocation hearings. This new regulation provides for a detailed due process procedure for final hearings before the KDOC Prisoner Review Board, successor to the Kansas Parole Board, in order to revoke conditional liberty interest statuses, specifically including house arrest. It requires advance written notice to the subject offender of the precise charge(s) of violation of conditions of supervision, including the evidence relied upon by the charging parole officer, for a hearing before the board without undue delay, for the rights to present evidence on one's behalf and to confront and cross-examine adverse witnesses, for a limited right to appointment of legal counsel, and to a written decision setting forth the evidence relied upon and the reasons for revocation of the conditional liberty status.

No quantifiable economic impact upon offenders, other state agencies or private citizens is now anticipated as a result of this regulation.

K.A.R. 44-9-503. Computation of time. This new regulation provides for various time computations in regard to sanctions imposed in conjunction with revocation of conditional liberty statuses, including specifically house arrest. In particular, it provides for withholding of good time credit awards for inmates in the house arrest program for the review period during which the supervision condition violation(s) occurs, and also for possible forfeiture of previously earned good time credits, in the event that the inmate also receives a disciplinary report for the same conduct.

No quantifiable economic impact upon offenders, other state agencies or private citizens is now anticipated as a result of this regulation.

K.A.R. 44-9-504. Waiver of final revocation hearing. This regulation provides a detailed set of criteria for eligibility to waive the final revocation hearing for an offender subject to revocation of a conditional liberty interest status, specifically including house arrest. Waiver of the final revocation hearing enables the offender on some form of community supervision, including house arrest, to avoid periods of "dead time" when the offender is not earning time toward service of the revocation penalty itself, and in the case of inmates under house arrest, to begin service of the remainder of the prison term upon the effective date of the waiver of hearing.

No quantifiable economic impact upon offenders, other state agencies or private citizens is now anticipated as a result of this regulation.

At the same hearing, pursuant to the authority vested in the department by the provisions of Executive Reorganization Order No. 11-34, effective July 1, 2011 (L. 2011, Ch. 130), the following Kansas Parole Board regulations are proposed for revocation, to wit: **K.A.R. 45-100-1, 45-500-1, 45-500-2, 45-500-3 and 45-500-4.**

No quantifiable economic impact upon offenders, other state agencies or private citizens is now anticipated as a result of these revocations.

A complete copy of the proposed permanent amendments of existing regulations, the proposed new permanent regulations, the proposed revocations and the complete economic impact statement may be obtained by contacting Linden G. Appel at the contact information above, 8 a.m. to 5 p.m. Monday through Friday.

The disagreements to be reported shall include those resolved and those not resolved; and

(3) an indication of whether the principal accountant's report on the financial statements for either of the past two years contained an adverse opinion or disclaimer of opinion or was qualified. The nature of the adverse opinion, disclaimer of opinion, or qualification shall be described.

Article 108.—TABLE GAMES

112-108-23. Dice; receipt, storage, inspections, and removal from use. (a) Each facility manager shall ensure that all of the following requirements are met each time dice are received for use in the gaming facility:

(1) The packages shall be inspected for proper quantity and any obvious damage by at least two employees, one of whom shall be from the table games department and the other from the security department or accounting department.

(2) The dice shall be recorded in the dice inventory ledgers by a member of the security or accounting department. Any discrepancies in the invoice or packing list or any defects found shall be reported upon discovery to a commission security agent on duty.

(3) The boxes shall be placed for storage in a primary or secondary storage area by at least two employees, one of whom shall be from the table games department and the other from the security department or accounting department. The primary storage area shall be located in a secure place, the location and physical characteristics of which shall be approved by the commission. Secondary storage areas, if needed, shall be used for the storage of surplus dice. Dice maintained in secondary storage areas shall be transferred to the primary storage area before being distributed to the pits or tables. All secondary storage areas shall be located in secure areas, the location and physical characteristics of which shall be approved by the commission.

(b) Each primary storage area and each secondary storage area shall have two separate locks. The security department shall maintain one key, and the table games department shall maintain the other key. No person working in the table games department that is an employee in a lower position than the pit manager or poker room manager may have access to the table games department key for the primary and secondary storage areas.

(c) A facility manager shall ensure that each dice storage area contains an inventory ledger and that its employees update the ledger when dice are added or removed from that storage area.

(d) Before the commencement of each gaming day and at other times as may be necessary, the pit manager, poker room manager, or the supervisor, in the presence of a security department employee and after notification to surveillance, shall remove the appropriate number of dice from the primary storage area for that gaming day.

(e) Before being transported to a pit, all dice shall be recorded on the dice inventory ledger. Both the authorized table games department employee and security department employee shall sign verifying the information.

(f) Once the dice are removed from the primary storage area, the pit manager, poker room manager, or the supervisor, in the presence of a security department employee, shall take the dice to the pits and distribute the dice to the floor supervisors or directly to the boxperson.

(1) At the time of receipt of any dice, a boxperson at each craps table shall, in the presence of the floor supervisor, inspect each die with a micrometer or any other instrument approved by the commission that performs the same function, a balancing caliper, a steel set square, and a magnet. These instruments shall be kept in a compartment at each craps table or pit stand and shall be at all times readily available for use by the commission upon request. The boxperson shall also check the dice to ensure that there is no indication of tampering, flaws, scratches, marks, or other defects that might affect the play of the game. The inspection shall be performed on a flat surface, which allows the dice inspection to be observed by surveillance and by any person near the pit stand.

(2) Following this inspection, the boxperson shall in the presence of the floor supervisor place the dice in a cup on the table for use in gaming. The dice shall never be left unattended while the dice are at the table.

(continued)

(3) The pit manager shall place extra dice in a single locked compartment in the pit stand. The floor supervisor or an employee in a higher position shall have access to the extra dice to be used for that gaming day.

(4) Any movement of dice after being delivered to the pit shall be made by a pit manager or an employee in a higher position and require a security escort after notifying surveillance. Procedures for the pickup of used dice, including obtaining keys, assigning individuals responsible, and updating inventory ledgers, shall include the following:

- (A) Transportation of used dice by security;
 - (B) surveillance notification before movement of the dice;
 - (C) time the procedures will be performed;
 - (D) location where the dice will be taken; and

(h) At the end of each gaming day or at any other times as may be necessary, a floor supervisor, other than the person who originally inspected the dice, shall visually inspect each die for evidence of tampering. Any evidence of tampering shall be immediately reported to the commission security agent on duty by the completion and delivery of an approved dice discrepancy report.

(1) Each die showing evidence of tampering shall be placed in a sealed envelope or container.

(A) All envelopes and containers used to hold or transport dice collected by security shall be transparent.

(B) A label shall be attached to each envelope or container that identifies the table number, date, and time and shall be signed by the boxperson and floor supervisor.

(C) The envelopes or containers and the method used to seal the dice shall be designed or constructed so that any tampering is evident.

(D) The security department employee receiving the die shall sign the original, duplicate, and triplicate copy of the dice discrepancy report and retain the original at the security office. The duplicate copy shall be delivered to the commission, and the triplicate copy shall be returned to the pit and maintained in a secure place within the pit until collection by a security department employee.

(2) The procedures for inspecting dice under this subsection shall include the following information:

(H) a requirement for reconciliation by the security department employee of the number of dice received with the number of dice destroyed or cancelled and any dice still pending destruction or cancellation. Each discrepancy shall be reported to the commission security agent within two hours.

(3) All other dice shall be put into envelopes or containers at the end of each gaming day.

(A) A label shall be attached to each envelope or container that identifies the table number, date, and time and is signed by the boxperson and floor supervisor.

(B) The envelope or container shall be appropriately sealed and maintained in a secure place within the pit until collection by a security department employee.

(i) All extra dice in dice reserve that are to be destroyed or cancelled shall be placed in a sealed envelope or container, with a label attached to each envelope or container that identifies the date and time and is signed by the pit manager.

(j) A security department employee shall collect and sign all envelopes or containers of used dice and any dice in dice reserve that are to be destroyed or cancelled and shall transport the envelopes or containers to the security department for cancellation or destruction. This collection shall occur at the end of each approved gaming day and at any other times as may be necessary. The security department employee shall also collect all triplicate copies of dice discrepancy reports, if any. No dice that have been placed in a cup for use in gaming shall remain on a table for more than 24 hours.

(k) A pit manager or supervisor of the pit manager may collect all extra dice in dice reserve at the end of each gaming day or at least once each gaming day as designated by the facility manager and approved by the commission, and at any other times as may be necessary.

(1) If collected, dice shall be returned to the primary storage area.

(2) If not collected, all dice in dice reserve shall be re-inspected before use for gaming.

(l) The facility manager's internal control system shall include approval procedures for the following:

(1) A dice inventory system that shall include, at a minimum, documenting the following:

(A) The balance of dice on hand;

(B) the dice removed from storage;

(C) the dice returned to storage or received from the manufacturer;

(D) the date of the transaction; and

(E) the signature of each individual involved;

(2) a reconciliation on a daily basis of the dice distributed, the dice destroyed and cancelled, the dice returned to the primary storage area and, if any, the dice in dice reserve; and

(3) a physical inventory of the dice performed at least once every three months and meeting the following requirements:

(A) This inventory shall be performed by an employee from the internal audit department or a supervisor from the cashier's cage, or accounting department and shall be verified to the balance of dice on hand required in paragraph (l)(1)(A);

(B) each discrepancy shall immediately be reported to the commission agent on duty; and

(C) the employees conducting this inventory shall make an entry and sign the dice inventory ledger in a manner that clearly distinguishes this count as the quarterly inventory.

(m)(1) Cancellation shall occur by drilling a circular hole of at least $\frac{3}{16}$ of an inch in diameter through the center of each die or any other method approved by the commission.

(2) Destruction shall occur by shredding or any other method approved by the commission.

(3) The destruction and cancellation of dice shall take place in a secure place, the location and physical characteristics of which shall be approved by the commission.

(4) Dice cancellation and destruction record shall be maintained indicating the date and time of cancellation or destruction, quantity of dice to be cancelled or destroyed, and the individuals responsible for cancellation or destruction.

(5) Procedures for cancelling or destroying dice shall include the following:

(A) The positions authorized by job description to cancel or destroy dice;

(B) surveillance notification before cancellation or destruction of the dice;

(C) time and location the cancellation or destruction will be conducted;

(D) specifically how cancellation or destruction will be accomplished, including the use of any special equipment; and

(E) other applicable security measures.

(6) Each facility manager shall notify the commission security agent of any flawed, marked, or suspect dice that are discovered during the cancellation or destruction process.

(n) Evidence of tampering, marks, alterations, missing or additional dice or anything that might indicate unfair play discovered shall be reported to the commission by the completion and delivery of a dice discrepancy report.

(1) The report shall accompany the dice when delivered to the commission security agent on duty.

(2) The dice shall be retained for further inspection by the commission security agent on duty.

(3) The commission agent receiving the report shall sign the dice discrepancy report and retain the original at the commission office. (Authorized by and implementing K.S.A. 2010 Supp. 74-8772; effective Jan. 8, 2010; amended Dec. 9, 2011.)
