Public Notice

The following ICFsMR cost center limits are being set forth for public comment. Comments should be sent to Pamela Keller, Program Administrator, KDADS/Community Services and Programs, 9th Floor East, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612. The comment period will expire 30 days from the publication of this notice.

K.A.R. 30-10-214 provides for the annual review and adjustment of Class II ICFsMR cost center limits, approved by the secretary of KDADS or designee, based on current cost information supplied by the enrolled, licensed providers of ICF-MR services, and formula set forth in the Kansas State Medicaid Plan (Attachment 4.19-D, Part II, Subpart O, page 1). The formula is as follows: Total allowable costs, including an inflation factor, are compared to the amount to be reimbursed under the current limits. The formula threshold requires that 60 percent of all ICFsMR are reimbursed 90 percent of their allowable costs. If less than 60 percent of the facilities are reimbursed 90 percent of their allowable costs, then the cost center limits are adjusted until the threshold is met. The inflation factor is based on the Global Insight Health-Care Cost Review (formerly Data Resources, Inc. [DRI] - WEFA), National Skilled Nursing Facility Total Market Basket Index.

To determine where to make the adjustments, two major cost centers are analyzed according to the following prescription:

- Administrative costs are based on facility size.
- Habilitation costs are based on facility size and level of care (LOC).

The cost analysis for 2011 showed that 62 percent of the Class II ICFsMR were being reimbursed 90 percent or more of their allowable costs. Per the state plan, the analysis indicates that adjustments are not required.

Recommendations

Based on cost report analysis and available funding, cost center limits for Class II ICFsMR are as follows:

Facility Size	Level I	Level II	Level III	Level IV	Level V
A. +16 beds	\$162.86	\$154.71	\$146.98	\$139.64	\$132.65
B. 9-16 beds	\$204.61	\$194.40	\$184.68	\$175.46	\$166.67
C. 4-8 beds	\$239.39	\$227.42	\$216.04	\$205.24	\$194.98

Administrative per diem limits are based on the size of the facility, using the same classes as referred to above.

Administrative Per Diem Limits

- A. 12.92
- B. 30.68
- C. 36.18

Fiscal Impact

Due to re-basing costs per FYE 2011 cost reports and the inflation factor, the estimated annual cost increase is \$128,138.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality operating permit. Natural Gas Pipeline Company of America, LLC has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et al. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards and requirements applicable to each source; and the monitoring, record keeping and reporting requirements applicable to each source as of the effective date of permit issuance.

Natural Gas Pipeline Company of America, LLC, 500 Dallas St., Suite 1000, Houston, TX 77002, owns and operates natural gas compressor station #193, located at Section 27, Township 24 South, Range 20 West, Edwards County, Kansas.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process is available for public review during normal business hours

at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka. Also, a copy of the proposed permit can be reviewed at the KDHE Southwest District Office, 302 W. McArtor Road, Dodge City. To obtain or review the proposed permit and supporting documentation, contact James Stewart, 785-296-1556, at the KDHE central office, and to review the proposed permit only, contact Ethel Evans, 620-356-1075, at the KDHE Southwest District Office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to James Stewart, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received before the close of business November 5.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Sharon Burrell, KDHE, Bureau of Air, not later than the close of business November 5 in order for the secretary of health and environment to consider the request.

The U.S. Environmental Protection Agency has a 45-day review period, which will start concurrently with the 30-day public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Ward Burns, U.S. EPA, Region VII, Air Permitting and Compliance Branch, 901 N. 5th St., Kansas City, KS 66101, 913-551-7312, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

Request for Comments

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. Next Generation Processing, LLC (NGP), located at 15914 Stenbury Court, Cypress, TX 77429, has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to construct the Haven Gas Plant, a 1.40-billion standard cu-

bic feet per day cryogenic natural gas processing facility, to be located in Section 6, Township 25 South, Range 4 West near Haven, Reno County, Kansas. The facility will consist of two natural gas-fired combined cycle turbines, each rated at 29,299 HP, with one compressor each, for natural gas compression and plant recompression; one natural gas-fired turbine generator set, rated at 40.27 MMBtu/hr; two natural gas-fired reciprocating engine generator sets, each rated at 1,980 HP; one amine unit, with a design capacity of 650 gallons per minute; one mol sieve dehydrator with a capacity of 1.40 billion standard cubic feet per day; one demethanizer unit in the cryogenic expander; and four electric compressors for plant compression and recompression of natural gas.

Emissions of particulate matter (PM), PM equal to or less than 10 microns in diameter (PM₁₀), PM equal to or less than 2.5 microns in diameter (PM_{2.5}), volatile organic compounds (VOCs), oxides of nitrogen (NO_x), sulfur dioxide (SO₂), carbon monoxide (CO), hazardous air pollutants (HAPs) and greenhouse gases (GHGs) were evaluated during the permit review process. The proposed permit is to be issued in accordance with the provisions of K.A.R. 28-19-350, prevention of significant deterioration (PSD), which adopt the federal standards, procedures and requirements of 40 CFR 52.21 by reference. These air quality regulations apply to major stationary emission sources located in areas designated as "attainment" or "unclassifiable" under the federal Clean Air Act (CAA). Attainment areas are areas where the air quality meets or is better than the national ambient air quality standards (NAAQS). Unclassifiable areas are areas where the air quality cannot be classified on the basis of available information as meeting or not meeting the NAAQS.

The PSD regulations require evaluation of emission reduction techniques to identify the best available control technology (BACT) for each regulated pollutant, including greenhouse gases (GHGs), for which the emission rate exceeds the PSD significant level. The purpose of BACT is to affect the maximum degree of reduction achievable, taking into account energy, environmental and economic impacts for each regulated pollutant under review. Evaluation of the estimated emissions for the proposed NGP project indicates that the emission rate of NO_x, O₃, CO, PM_{2.5} and GHGs all exceed the significance levels. NGP conducted the required BACT analyses. The department has reviewed NGP's BACT analyses and concurs with its findings.

- BACT for the two 29,299 HP combine cycle turbines is as follows: dry low NO_x technology, good combustion practices, energy efficient design, waste heat recovery and firing pipeline natural gas is BACT for NO_x; good combustion practices, energy efficient design, waste heat recovery and firing pipeline natural gas is BACT for CO, PM_{2.5} and GHG emissions.
- BACT for the one 40.27 MMBtu/hr turbine generator set is as follows: dry low NO_x technology, good combustion practices, energy efficient design and firing pipeline natural gas is BACT for NO_x; good combustion practices, energy efficient design and firing pipeline natural gas is BACT for CO, PM_{2.5} and GHG emissions.

(continued)

- BACT for the two 1,980 HP reciprocating engine generator sets is as follows: dual nonselective catalytic reduction (NSCR) three-way catalytic converters, good combustion practices and firing pipeline natural gas is BACT for NO_x; dual nonselective catalytic reduction (NSCR) three-way catalytic converters, good combustion practices and firing pipeline natural gas is BACT for CO; good combustion practices, energy efficient design and firing pipeline natural gas is BACT for PM_{2.5} and GHG emissions.
- BACT for the one amine unit still vent is as follows: waste heat recovery from the turbines for amine regeneration is BACT for GHG emissions.
- BACT for plant fugitives and equipment leaks is as follows: an effective leak detection and repair (LDAR) program is BACT for GHG emissions.

An ambient impact analysis was performed on the potential air emissions of NO₂, PM_{2.5} and CO from this project.

- A preliminary modeling analysis conducted for the annual NO₂ averaging period demonstrated no significant impact to the annual NO₂ ambient air quality standard and demonstrated that 1.3 percent of the annual Class II maximum allowable increment for NO₂ is expected to be consumed. A preliminary modeling analysis for the one-hour NO₂ ambient air quality standard demonstrated no significant impact to the one-hour NO₂ ambient air quality standard. The EPA has not established a one-hour Class II maximum allowable increment for NO₂. Accordingly, no calculation of the potential consumption of such increment is possible.
- A preliminary modeling analysis conducted for the annual PM_{2.5} averaging period demonstrated no significant impact to the annual PM_{2.5} ambient air quality standard and that 2.0 percent of the annual Class II maximum allowable increment for PM_{2.5} is expected to be consumed. A preliminary modeling analysis conducted for the 24-hour PM_{2.5} ambient air quality standard demonstrated no significant impact to the 24-hour PM_{2.5} ambient air quality standard and that 6.4 percent of the 24-hour Class II maximum allowable increment for PM_{2.5} is expected to be consumed.
- A preliminary modeling analysis conducted for the eight-hour CO averaging period demonstrated no significant impact to the eight-hour CO ambient air quality standard. A preliminary modeling analysis conducted for the one-hour CO averaging period demonstrated no significant impact to the one-hour CO ambient air quality standard. The EPA has not established any Class II maximum allowable increments for CO. Accordingly, no calculation of the potential consumption of such increment is possible.

An analysis of visibility was conducted for Hercules Glades Wilderness Area in southwestern Missouri and Haven High School. The VISCREEN model results indicate no exceedances of the screening criteria. No adverse impacts on soils and vegetation in the area are expected.

Any federal land manager who has reason to believe they may have a federal Class I area adversely impacted by the emissions from the proposed project has the opportunity to present KDHE with a demonstration of the adverse impact on the air quality-related values of the federal Class I area during the comment period.

A public comment period has been established until 5 p.m. November 5 to allow citizens the opportunity to express any concerns they may have regarding this proposed permitting action. All comments should be submitted in writing to Sharon Burrell, KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka, 66612-1366.

Any member of the public may request the department hold a public hearing to receive comments on the proposed issuance of the draft air quality construction permit. Written requests to hold a public hearing should be sent to the attention of Sharon Burrell at the address listed above or by fax to 785-291-3953 and must be received by 5 p.m. November 5. A public hearing is tentatively scheduled by KDHE at 5 p.m. November 8 at the Haven Community Building, 215 S.W. Reno, Haven, and will continue until all verbal and/or written comments have been submitted by participants. If no pertinent requests to hold the public hearing are received by 5 p.m. November 5, the public hearing will be cancelled. A notice of the cancellation will be posted at the KDHE website at <http://www.kdheks.gov/bar/publicnotice.html>.

If a hearing is conducted, all interested parties will be given a reasonable opportunity to present their views orally or by submission of written materials during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit oral presentations to a specific time limit. Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed materials in an accessible format. Requests for accommodation must be made not later than October 25 by contacting Sharon Burrell at 785-296-0297.

A copy of the proposed permit, permit application, all supporting documentation and all information relied upon during the permit application review process for the PSD is available for public review for a period of 30 days from the date of publication during normal business hours, 8 a.m. to 5 p.m., at the KDHE, Bureau of Air, 1000 S.W. Jackson, Suite 310, Topeka. A copy of the proposed permit and all supporting documentation also can be reviewed at the KDHE South Central District Office, 130 S. Market, Suite 6050, Wichita. To obtain or review the proposed permit and supporting documentation, contact Lynelle Ladd, 785-296-1719, at the KDHE central office, or David Butler, 316-337-6042, at the KDHE South Central District Office. The standard departmental cost will be assessed for any copies requested.

These same materials are available, free of charge, at the KDHE Bureau of Air Public Notice website, <http://www.kdheks.gov/bar/publicnotice.html>.

Cargill, Inc. P.O. Box 1403 Hutchinson, KS 67504	Arkansas River via Cow Creek	Process Wastewater

Kansas Permit No. I-AR49-PO08 Federal Permit No. KS0119733

Legal Description: NW¼, S19, T23S, R5W, Reno County, KS

Facility Name: Cargill Salt Company

Facility Description: This action consists of reissuance of an existing permit for existing discharges of wastewater. This facility produces salt products using the solution brine mining and vacuum evaporation process. Condenser cooling water, condensate from evaporator heat exchangers, and stormwater runoff are currently discharged through Outfall 001 to Cow Creek. Under a schedule of compliance to reduce chloride discharges into Cow Creek, the facility has chosen to construct a line (Outfall 006) for discharging cooling water and condensates directly to the Arkansas River. Stormwater runoff from the facility site will continue to flow into Cow Creek via storm drains. Sanitary waste and boiler blowdown are directed to the city sanitary sewer system. Other wastewaters are injected back

into the brine field. The proposed permit contains limits for chlorides, total suspended solids, whole effluent toxicity and pH, as well as monitoring for temperature, total phosphorus and effluent flow.

Name and Address of Applicant	Receiving Stream	Type of Discharge
National Cold Storage, Inc. P.O. Box 357 Bonner Springs, KS 66012	Kansas River via Drainage Ditch	Noncontact Cooling Water

Kansas Permit No. I-KS06-PO02 Federal Permit No. KS0003085

Legal Description: S13, T12S, R22E, Leavenworth County, KS

Facility Description: This action consists of reissuance of an existing permit for operation of an existing wastewater treatment facility and discharge of noncontact cooling water. This is an underground storage facility located in an old quarry providing refrigerated storage for food products. About five gallons per minute of well water is used for evaporative condenser cooling and is discharged as non-contact cooling water to the Kansas River without any treatment (Outfall 001). Approximately two gallons per minute of domestic wastes are treated in a two-stage aeration sewage treatment plant (Outfall 002). This domestic waste is chlorinated and dechlorinated prior to discharging to the Kansas River. The proposed permit contains limits for biochemical oxygen demand, total suspended solids and pH, as well as monitoring of E. coli and effluent flow. Contained in the permit is a schedule of compliance requiring the permittee to develop and submit and acceptable stormwater pollution prevention plan.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. Comments should be submitted to the attention of the Livestock Waste Management Section for agricultural-related draft documents or applications, or to the Technical Services Section for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft documents or application notices received on or before November 3 will be considered in the formulation of the final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-12-291/300, KS-Q-12-141/142) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the secretary of health and environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8 a.m. to 5 p.m. Monday through Friday, excluding holidays.

Doc. No. 040952

State of Kansas
Governmental Ethics Commission

Opinion No. 2012-05

Written August 29, 2012, to Patricia Long, Topeka.

Synopsis: A state employee may not be substantially involved in the preparation of or participate in the making of a contract with any business in which the employee's sister and the sister's husband collectively have a substantial interest. Thus, a state employee is precluded from participating in the review of proposals, the selection of bids and/or the negotiation process for the contracts resulting from a request for proposals (RFP) for child welfare programs delivered by licensed child placing agencies if the company that employs the sister's husband submits a bid.

Cited herein: K.S.A. 46-229; K.S.A. 2011 Supp. 46-233.

Dear Ms. Long:

This opinion is in response to your letter dated July 30, 2012, wherein you request an opinion from the Kansas Governmental Ethics Commission, concerning application of the state conflict of interest laws, K.S.A. 46-215 *et seq.* We note at the outset that the Commission's jurisdiction is limited to the applicability of K.S.A. 46-215 *et seq.*, and the Commission's opinion does not address whether some other statutory system, common law theory, or agency rule or regulation applies to your inquiry.

Factual Statement

You request this opinion in your capacity as a program administrator for the Division of Prevention and Protection Services of the Department for Children and Family Services (DCF). You explain that your responsibilities include administration and oversight of the foster care and adoption programs. Services under these child welfare programs are delivered by licensed child placing agencies under contract with DCF. The contracts are the result of negotiated, competitive bids submitted in response to a request for proposals (RFP). The next RFP is being developed and you are participating in the RFP development process.

You indicate that your brother-in-law is employed by TFI Family Services Inc. (TFI). TFI was one of the successful bidders during the last procurement process. You state that whether TFI submits a proposal or not, you would like to participate in the review of proposals, the selection of bids and/or the negotiation process for the new contracts resulting from the RFP.

Question

Do the conflict of interest laws prohibit or limit your participation in the review of proposals, the selection of bids and/or the negotiation process for the new contracts resulting from the RFP?

Analysis and Opinion

K.S.A. 2011 Supp. 46-233(a) places restrictions on a state employee's participation in state contracts. That statute states in pertinent part as follows:

- (1) No state officer or employee shall in the capacity as such officer or employee be substantially involved in the preparation of or participate in the making of a contract

with any person or business by which such officer or employee is employed or in whose business such officer or employee or any member of such officer's or employee's immediate family has a substantial interest. . . .

"Substantially involved in the preparation or participate in the making of a contract" means "having approved or disapproved a contract or having provided significant factual or specific information or advice or recommendations in relation to the negotiated terms of the contract."¹ Based on your assertion that you would participate in the review of proposals, the selection of bids and/or the negotiation process for the new contracts resulting from the RFP, you would be substantially involved in the preparation or participation in the making of a contract that resulted from the RFP.

The next issue to consider is whether your brother-in-law is a member of your "immediate family," which is not defined in K.S.A. 2011 Supp. 46-233 or anywhere in the state level conflict of interest laws. "Family member" is defined in a regulation concerning nepotism under the state level conflict of interest laws, K.A.R. 19-40-4(b)(1). That definition includes "parent, child, or sibling related by marriage as denoted by the suffix of 'in-law'." It is significant that the nepotism law uses the more general term, "family member," while K.S.A. 2011 Supp. 46-233 uses the qualifier "immediate" before "family." We believe that "immediate family" is more limited than "family member." Black's Law Dictionary defines "immediate family" as a "[t]erm generally referring to one's parents, wife or husband, children, and brothers and sisters."² It is our opinion that the term "immediate family" as used in K.S.A. 2011 Supp. 46-233 includes parents, children, brothers and sisters, and a spouse, but does not include persons related by marriage as denoted by the suffix of "in-law."

While your brother-in-law is thus not a member of your "immediate family," your sister, who is his wife, is a member of your immediate family.

A final issue to determine is whether a member of your immediate family has a "substantial interest" in TFI, Inc. The answer is found in K.S.A. 46-229(b):

If any individual or an individual's spouse, *either individually or collectively*, has received during the preceding calendar year compensation which is or will be required to be included as taxable income on federal income tax returns of the individual and spouse in an aggregate amount of \$2,000 from any business or combination of businesses, the individual has a substantial interest in that business or combination of businesses.³

Individually, your brother-in-law (not a member of your immediate family) would have a substantial interest in TFI from the time his taxable income from TFI equals or exceeds \$2,000.

However, his wife, i.e., your sister (who is a member of your immediate family), and her husband, i.e., your brother-in-law, **collectively** would have a substantial interest in TFI from the time his taxable income from TFI equals or exceeds \$2,000.

Therefore, as a state employee, you may not be substantially involved in the preparation of or participate in the making of a contract with any business in which your

(continued)

sister and her husband collectively have a substantial interest. This precludes you from participating in the review of proposals, the selection of bids and/or the negotiation process for the new contracts resulting from the RFP for child welfare programs delivered by licensed child placing agencies if TFI, Inc. submits a bid.

Governmental Ethics Opinion No. 2008-05 is withdrawn to the extent it conflicts with this opinion.
