Request for Comments

The Kansas Department of Health and Environment has received an application to expand the Champlin Tire Recycling, Inc. waste tire monofill. The requested modification to expand the landfill would increase its permitted disposal area from 8.5 to 13.7 acres and increase its permitted disposal volume from 324,000 cubic yards to 604,000 cubic yards. The proposed landfill expansion would be constructed and operated in conformance with state solid waste regulations and accept only waste tires as defined by Kansas statutes. The proposed landfill expansion site is located at 1240 S. 190th St., southwest of Pittsburg, Kansas, in the S½ of the NE¼ and the N½ of the SE¼ of Section 14, in Township 31 South, Range 24 East, in Crawford County.

The Crawford County Commission has previously certified that the landfill is consistent with the county's solid waste management plan and local land use restrictions or zoning. KDHE has reviewed the application and found it to be in conformance with state solid waste statutes and regulations.

KDHE is providing public notice of the intent to approve the proposed landfill expansion. However, a final decision to approve the expansion has not been made, and KDHE will consider information gathered during the public comment period before making a final decision. A copy of the administrative record, which includes the permit application, engineering drawings, draft permit and other information with respect to this permit action, will be available for public review through September 9, during normal business hours, at the following locations:
