The regulations that will be heard during the regulatory hearing portion of the meeting is as follows:

K.A.R. 115-1-1. This permanent regulation establishes definitions. The proposed changes would clean up and clarify language about the definition of carp.

Economic Impact Summary: No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

K.A.R. 115-2-1. This permanent regulation establishes amounts of fees. The proposed changes would establish a price for nonresident landowner and tenant elk permits, reduce resident and nonresident calendar day fishing licenses, and create a reduced price youth trout permit.

Economic Impact Summary: The changes collectively could result in a reduction to the wildlife fee fund in the amount of \$72,355. Otherwise, no substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

K.A.R. 115-4-4a. This permanent regulation establishes legal equipment and taking methods for wild turkeys. The proposed changes would allow the use of draw locking devices, similar to recent changes for big game legal equipment.

Economic Impact Summary: No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

K.A.R. 115-7-3. This permanent regulation establishes provisions for the taking and use of baitfish or minnows. The proposed changes would allow the use of silver carp and bighead carp larger than 12 inches in total length to be used as baitfish, provided the two carp types are not transported from the water live.

Economic Impact Summary: No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

K.A.R. 115-7-10. This permanent regulation establishes special provisions for fishing. The proposed changes would update the reference document in relation to designated aquatic nuisance species waters.

Economic Impact Summary: No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

K.A.R. 115-18-7. This permanent regulation establishes the application, permit and general provisions for the use of crossbows and locking draws for big game and wild turkey hunting by persons with disabilities. The regulation is proposed for revocation as those equipment types are now authorized for general use.

Economic Impact Summary: No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

K.A.R. 115-18-10. This permanent regulation establishes prohibitions, permit requirements and restrictions for importation and possession of certain wildlife. The proposed changes would add species already listed as injurious by federal law, which already prohibits possession of these species.

Economic Impact Summary: No substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

K.A.R. 115-18-12. This permanent regulation establishes requirements, restrictions and permit duration for the trout permit. The proposed changes would remove the exemption for persons under 16 from obtaining a trout permit in conjunction with changes in other regulations for take and price structure.

Economic Impact Summary: The economic impact is contained in K.A.R. 115-2-1. Otherwise, no substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.

K.A.R. 115-25-14. This exempt regulation establishes creel limits, size limits, possession limits and open seasons for fishing. The proposed version of the regulation would update the reference document for size and length limits at various waterbodies throughout the state and adjust the trout creel limit for youths.

Economic Impact Summary: If fishing license and permit sales are similar to 2019, the proposal would generate approximately \$6,794,800 to the agency and an additional \$292,962,000 to the Kansas economy. Otherwise, no substantial economic impact to the department, other state agencies, small businesses, or individual members of the public is anticipated.
