Synopsis: K.S.A. 2009 Supp. 40-955(a) requires that all insurers file with the Kansas Insurance Department (KID) rate plans and supporting information and that such plans and information are subject to inspection by the public. The Kansas Open Records Act (KORA) gives KID the authority to deny the reproduction of copyrighted information and the inspection and reproduction of trade secrets. Whether KID violates copyright law by making copyrighted materials available for downloading and copying at a dedicated computer terminal is a factual question dependent upon federal copyright law. Whether KID violates KUTSA by placing a rate filing with trade secrets on a dedicated computer terminal for inspecting, downloading, and copying will depend upon facts relative to whether the information constitutes a trade secret and, if so, whether KID misappropriated the trade secret. **Taxation—Motor Vehicle Fuel Taxes; Motor Vehicle Fuels and Special Taxes; Apportionment of Special City and County Highway Fund; Propriety of County Chartering Out of Motor Vehicle Fuel Tax Apportionment Statute, December 27, 2010.**

Synopsis: A board of county commissioners cannot use its home rule power to exempt the county from the motor fuel tax apportionment statute because altering a statutory tax apportionment formula is not "county business" for purposes of K.S.A. 19-101a. Additionally, the requirement to allocate motor fuel taxes to cities and counties is a statutory directive that the county treasurer is obliged to follow. A board of county commissioners cannot direct the treasurer to allocate funds in a manner inconsistent with K.S.A. 79-3425c. (b) In order to determine the projected cost savings for the useful life of an energy star product, each state agency shall utilize the United States environmental protection

agency's energy savings calculator for the energy star product.

(c) If the United States environmental protection agency has not produced an energy savings calculator for a specific energy star product, then the projected cost savings for the useful life of the energy star product shall be based on a comparison of the following:

(1) The initial cost of the energy star product plus the estimated lifetime operating cost of the energy star product; and

(2) the initial cost of a functionally equivalent product plus the estimated lifetime operating cost of the functionally equivalent product.

(d) This regulation shall apply only to the purchase of new, unused energy star products and equipment. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,127; effective Feb. 4, 2011.)

(b) "Division" means the division of facilities management within the Kansas department of administration.

(c) "Energy audit" means the utilization of a building energy-use benchmarking system, including the energy star portfolio manager, that generates a written report that details the conversion of a building's energy consumption data into energy-intensity metrics for the purpose of comparing the energy use of a building to the national average energy use of similar buildings.

(d) "Energy consumption data" means the monthly amount of energy consumed in the preceding 12-month period as recorded by a utility distributing and selling energy or water services for a particular building.

(e) "Energy-intensity metrics" means the measurement of weather variations and changes in the physical and operating characteristics of each building.

(f) "Energy star portfolio manager" means an online energy management tool created by the United States environmental protection agency that uses an algorithmic formula for tracking and assessing energy and water consumption across a portfolio of buildings. The energy star portfolio manager can be accessed through the division's web site.

(g)(1) "Excessive amount of energy," when applied to a building subject to an energy audit, shall be determined by comparing the building's site and source energy-intensity metrics, annualized to a 12-month period, to the national average site and source energy-intensity metrics of similar buildings.

(2) If the site and source energy-intensity metrics of the building subject to an energy audit are greater than the national average site and source energy-intensity metrics, then the building shall be deemed to use an excessive amount of energy.

(d) If a state agency owns five or more buildings, an energy audit for at least one-fifth of all of those buildings shall be conducted each year. The written reports for the first energy audits shall be submitted no later than July 1, 2011.

(e) Each state agency conducting an energy audit shall identify each state-owned building in which an excessive amount of energy is being used, pursuant to K.S.A. 75-37,128 and amendments thereto. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,128; effective Feb. 4, 2011.)

Energy audit required for new lease, or lease renewal or extension, of non-state-owned real property.** (a) Each new lease, or lease renewal or extension, for non-state-owned real property submitted by an agency head to the division for approval shall include the written report for an energy audit conducted by the owner or lessor of each building on that real property that is the subject of the new lease, or lease renewal or extension.

(b) Subject to the provisions of K.S.A. 75-3739 and amendments thereto, a new lease, or lease renewal or extension, may be approved if either of the following conditions is met:

(1) The written report for the energy audit indicates that the leased space does not use an excessive amount of energy.

(2) The written report for the energy audit indicates that the leased space uses an excessive amount of energy, and the new lease, or lease renewal or extension, requires the owner or lessor to implement cost-effective energy conservation measures that are approved by the secretary to reduce or eliminate the excessive amount of energy. (Authorized by and implementing K.S.A. 2009 Supp. 75-37,128; effective Feb. 4, 2011.)
