State of Kansas

Department of Agriculture

**Notice of Hearing on Proposed
Administrative Regulations**

A public hearing will be conducted at 10:00 a.m. Wednesday, May 23, 2018, in the 1st floor meeting room 124 of the Kansas Department of Agriculture, 1320 Research Park Dr., Manhattan, Kansas, to consider the adoption of proposed regulations.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the Secretary of Agriculture, 1320 Research Park Dr., Manhattan, KS 66502, or by email at ronda.hutton@ks.gov. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. These regulations are proposed for adop-

(continued)

tion on a permanent basis. A summary of the proposed regulations and their economic impact follows:

K.A.R. 4-6-3, K.A.R. 4-28-5 and K.A.R. 4-28-6. The proposed regulations seek to increase application and licensing fees for food establishments and food processing plants and fees for certificates of free sale. Additionally, K.A.R. 4-28-6 adds a new, lower fee category for very low risk food establishments that have few or no food-handling processes and systematic controls in place to further reduce the risk of a food-borne illness outbreak. Food establishment fees have not been raised since 2012. Food processing and food storage fees have not been raised since 2009. Certificate of free sale fees have not been raised since at least 2008.

The Kansas Department of Agriculture’s Food Safety and Lodging Program (KDA-FSL) regulates over 15,000 businesses and facilities, including food establishments such as restaurants (13,240), food processors (619), food warehouses (364), school meal programs (1,292), and lodging establishments (857).

In 2017, KDA-FSL conducted 21,854 inspections across the various licensed facilities. Inspection times vary depending on the inspection reason, the risk category of the facility, and the size of the facility. Inspections may last as little as 15 minutes for a follow-up inspection at a small food establishment to more than 8 hours for a complex food processor. The base cost of an inspection visit, independent of the inspection type, is \$146.19.

In order to improve the stakeholder experience by increasing expertise in conducting food processing inspections, KDA-FSL reorganized inspection staff to create a

group of four inspectors dedicated to conducting food processing inspections. This reorganization will result in increased travel costs associated with food processing and food warehouse inspections because of increased inspection territory size. The increase in costs will be partially offset by improved inspection efficiencies from these inspectors also conducting the inspections of food establishments operating at the food processors.

The proposed regulations are not required, but are necessary to fund the inspection and licensing duties in the Food Safety and Lodging Program. Specifically, the program is incurring increased costs in employee benefits as well as unfunded statutory obligations such as food transportation crashes and food activities related to temporary events. Increased costs of employee benefits for employees processing Certificates of Free Sale are also being incurred.

The new license fee category was requested by the industry to better reflect a new type of food establishment that has emerged in Kansas in the past two years. The fee was set based on an analysis of risk and projected costs of administration and inspecting at the time of licensing and once every three years thereafter.

The regulation is not mandated by Federal Law.

If adopted, the new regulations will increase revenue at KDA by \$914,813.62.

A financial impact will be incurred upon licensed food establishments, food processing facilities, and food storage facilities because of this regulation. The license fee and application fee will increase for all license types. The specific increases for each fee range are:

The new category 4 (very low risk) food establishment category will be 32% less each year than the current category 3 (low risk) fee. This new, lower fee license category will maintain the same level of public health protection at a lower fee level that better fits the economic situation of these operations.

Performing fewer inspections was considered but was outweighed by public health concerns and ultimately led to the final decision to increase fees to cover the costs of performing inspections at our current frequencies.

Not adding a new risk category 4 and continuing to license and inspect those establishments under category 3 was considered but without an overriding negative public health impact the industry request was chosen.

Not issuing Certificates of Free Sale was considered but was outweighed by negative impact of preventing access to international markets.

There will be no Environmental Impact based upon these regulations.

Any individual with a disability may request accommodations in order to participate in the public hearing and may request the proposed regulations and impact statement in an accessible format. Requests for accommodations should be made at least five working days in advance of the hearing by contacting Ronda Hutton at 785-564-6715 or fax at 785-564-6777. Article 401.—NORTHEAST GAMING ZONE

111-401-6. Play. (a) After the cards have been shuffled, the dealer shall offer the stack of cards to a player to be cut. The player may cut the cards by placing a cutting card provided by the dealer. The cut card must be placed in the stack so there are no fewer than approximately 52 cards on either side of the cut card for a six deck game, as estimated by the dealer, or no fewer than approximately 26 cards on either side of the cut card for a double deck game, as estimated by the dealer.

(b) At the commencement of each round of play, the dealer shall, starting on the dealer's left and continuing around the table, deal the cards in the following order:

(1) One card face upwards to each box on the blackjack layout in which a wager is contained;

(2) One card face upwards to the dealer; and,

(3) A second card face upwards to each position in which a wager is contained.

(4) A second card face down to the dealer and placed underneath the dealer's up card (card dealt face up).

(c) After two cards have been dealt to each player and the dealer, the dealer shall, beginning from the dealer's left, have each player indicate whether they wish to double down, split, stand or draw.

(d) As each player indicates the player's decision(s), the dealer shall deal whatever additional cards, if any, are necessary to effectuate such.

(e) After the decision(s) of each player have been implemented and all additional cards have been dealt, the dealer shall expose the dealer's hole card. Any additional cards authorized to be dealt to the hand of the dealer shall be dealt face up.

(f) If the dealer has a blackjack, no additional cards shall be dealt and each player's wager shall be settled.

(g) Payment of blackjack shall be made as follows:

(1) If the first face up card dealt to the dealer is a 2, 3, 4, 5, 6, 7, 8, or 9 and a player has a blackjack, the dealer shall pay the blackjack at odds of 3 to 2 or at the rate of 6 to 5 (as stated on the gaming table layout) and shall remove that player's cards. If the first face up card dealt to the dealer is a king, queen, jack or 10, the dealer shall check the dealer's hole card for an ace. If the dealer's hole card does not give the dealer a blackjack, the player having a blackjack shall be paid at odds of 3 to 2 or at the rate of 6 to 5 (as stated on the gaming table layout). If the dealer's hole card gives the dealer a blackjack, the wager of the player having a blackjack shall be void and constitute a "push" or a "tie."

(2) Whenever the first card dealt to the dealer is an ace, each player shall have the right to make an insurance bet which, except as otherwise provided herein, shall win if the dealer's hole card is a king, queen, jack or 10 and shall lose if the dealer's hole card is an ace, 2, 3, 4, 5, 6, 7, 8, or 9. An insurance bet may be made by placing on the insurance line of the layout an amount not more than half the amount staked on the player's initial wager. After all insurance wagers have been placed, the dealer will check the dealer's hole card for a blackjack. If the dealer has a blackjack, the dealer will collect all of the losing original wagers and pay all insurance wagers at odds of 2 to 1. The wager of a player having a blackjack shall be void and constitute a "push" or a "tie." If the dealer does not have a blackjack, the dealer will immediately collect all of the losing insurance wagers. When a player has a blackjack, the player may take even money for the player's wager instead of making an insurance wager. In such circumstances, the dealer shall pay the wager at 1 to 1 odds before checking the dealer's hole card and shall remove that player's cards.

(3) A player may elect to double down, which means to make an additional wager not in excess of the amount of the player's original wager on the first two cards dealt to the player on the condition that one and only one additional card shall be dealt to the hand on which the player has elected to double down. If a dealer obtains a blackjack after a player doubles down, the dealer shall only collect the amount of the original wager of such player and shall not collect the additional amount wagered in doubling down. Upon a player's election to double down, the dealer shall deal the player's hand one additional card. In the alternative, if the additional card is dealt face down, such card shall be turned face upward prior to paying or taking the wager.

(h) If the initial two cards dealt to a player are identical in rank, the player may elect to split the hand into two separate hands provided that the player makes a wager equal to the player's original wager (also known as "splits pairs"). When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to any other hand. After a second card is dealt to each hand of the split pair, the player shall indicate his or her decision to stand or draw with respect thereto except that:

(A) A player may split pairs a maximum of three times to make a total of four hands; and

(B) A player splitting aces shall only have one card dealt to each ace and may not elect to receive additional cards.

(i) A player may elect to draw one or more additional cards whenever the player's point count total is less than 21 except that:

(1) A player electing to double down shall draw only one additional card;

(2) A player splitting aces shall only have one card dealt to each ace and may not elect to receive additional cards.

(j) A dealer shall draw additional cards to the dealer's hand until the dealer has:

(1) A hard total of 17, 18, 19, 20, or 21, whichever comes first; or

(continued)

(2) A soft total of 18, 19, 20, or 21, whichever comes first. A dealer shall draw no additional cards to the dealer's hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will have no effect on the outcome of the round of play.

(k) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(l) If the dealer has a hard total of 17 and accidentally draws a card for the dealer, such card shall be burned (taken out of play). (Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective, T-111-2-9-12, Dec. 14, 2011; amended T-111-3-7-18, Jan. 17, 2018.)

111-401-11. Wagers and payout odds. (a) Minimum and maximum wagers will be posted on a sign at each table.

(b) If a player has been permitted to wager less than the table minimum, the dealer will take or pay the amount actually wagered. If a player has been permitted to wager more than the table maximum, the excess will be returned to the player and the dealer will pay the correct odds on the posted maximum amount. The player will be informed of the table minimum or maximum for subsequent wagers.

(c) A player may play two hands at double the table minimum per hand not to exceed the table maximum. A player may play three hands at five times the table minimum per hand not to exceed the table maximum. Exceptions to this rule are permitted if approved by the pit manager, casino shift manager, or higher ranking casino official.

(D) An original wager will lose if the total point value of the player's cards exceeds 21 or is lower than the total point value of the dealer's cards.

(E) An original wager will tie if the total point value of the player's cards is equivalent to the total point value of the dealer's cards. A blackjack beats a hand with a total point value of 21 that uses the point value three or more cards.

(F) When a player's hand consists of a blackjack, the winning hand will be paid out at a rate of 3 to 2 or at the rate of 6 to 5 (as stated on the gaming table layout). All winning original wagers, except hands consisting of a blackjack, will be paid out at the rate of 1 to 1.

(B) An additional double down wager may be made as a tip for the dealer only if the player has made an original wager for the dealer.

(F) A winning double down bet will be paid at the rate of 1 to 1.

(4) Split wager:

(A) A split wager is an additional wager made when a player's initial two cards are of the same face value provided the player makes a wager equal to the original wager. A player may split up to three times for a total of four hands. A player may double down after splitting with the exception of after splitting aces. A player will only receive one additional card after splitting aces.

(B) A split wager will win if the total point value of the player's cards exceeds the total point value of the dealer's cards without exceeding a total point value of 21.

(C) A split bet will lose if the total point value of the player's cards exceeds 21 or is less than the total point value of the dealer's cards.

(E) A winning split wager will be paid at the rate of 1 to 1.

(Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective, T-111-2-9-12, Dec. 14, 2011; amended T-111-3-7-18, Jan. 17, 2018.)

111-401-117. Wagers and payout odds. (a) Minimum and maximum wagers will be posted on a sign at each table.

(b) Maximum table payouts, if any, will be posted at each table and will not be less than the maximum wager times the maximum odds.

(c) If a player has been permitted to wager less than the table minimum, the dealer will take or pay the amount actually wagered. If a player has been permitted to wager more than the table maximum, the excess will be returned to the player and the dealer will pay the correct odds on the posted maximum amount. The player will be informed of the table minimum or maximum for subsequent wagers.

(d) A player may play two hands at double the table minimum per hand not to exceed the table maximum. (C) A double down wager will win if the total point value of the player's cards exceeds the total point value of the dealer's cards without exceeding a total point value of 21.

(D) A double down wager will lose if the total point value of the player's cards exceeds 21 or is less than the total point value of the dealer's cards.

(E) A double down wager will tie ("push") if the player's hand and the dealer's hand are of equal total point value.

(F) A winning double down wager will be paid at the rate of 1 to 1.

(4) Split wager:

(A) An additional wager made when a player's initial two cards are of the same face value provided the player makes a wager equal to the original wager. A player may split up to three times for a total of four hands. A player may double down after splitting with the exception of after splitting aces. A player will only receive one additional card after splitting aces.

(B) A split wager will win if the total point value of the player's cards exceeds the total point value of the dealer's cards without exceeding a total point value of 21.

(C) A split wager will lose if the total point value of the player's cards exceeds 21 or is less than the total point value of the dealer's cards.

(D) A split wager will tie ("push") if the player's hand and the dealer's hand are of equal total point value.

(E) A winning split wager will be paid at the rate of 1 to 1.

(F) An additional split wager may be made as a tip for the dealer only if the player has made an original wager for the dealer.

(f) The following describes a list of the permissible wagers, payout odds, and what constitutes a win, loss, or tie for three-card wagers:

(1) An optional three-card wager may be made by the player prior to the first card of the hand being removed from the shoe in an area designated for the three-card wager. The player must make an original blackjack wager in order to place the three-card wager.

(2) An additional three-card wager may be made as a tip for the dealer.

(3) A three-card wager will win if the dealer's up card and the player's original two cards combined equal a flush, straight, three-of-a-kind, or straight flush.

(4) A three-card wager will lose if the dealer's up card and the player's original two cards combined do not equal a flush, straight, three-of-a-kind, or straight flush.

(5) Winning three-card wagers will be paid out as follows:

(A) When the player's original two cards and the dealer's up card combined equal a flush, straight, three-of-a-kind, or a straight flush, the hand will be paid at a rate of 9 to 1.

Article 501.—SOUTH CENTRAL GAMING ZONE

111-501-24. Wagers. (a) The minimum and maximum bets allowed shall be determined for each three-card poker table.

(b) The table limits shall be and remain conspicuously posted on a sign at each table. Any wager made by a player that is less than the stated table minimum that is not rejected by either the dealer or table games supervisor or higher ranking casino official, prior to the commencement of play shall be treated as a valid wager. Any wager made by a player that is above the stated table maximum that is not rejected by either the dealer or table games supervisor or higher ranking casino official, shall play up to the posted maximum and the balance shall be returned to the player and not considered as part of the valid wager, subject to the following:

(1) If a wager appears to be over the table maximum and cards have already been dealt, the dealer shall announce that all chips play to the table limit.

(2) If the wager wins, the dealer shall segregate the maximum payoff on the table.

(3) If the wager loses, the dealer shall segregate the maximum wager on the table and return all chips over the maximum to the player.

(c) A player shall not be allowed to play more than one hand.

(d) A player can make two wagers plus a pair plus wager.

(e) Wagers, play, and payouts shall be made as follows:

(1) An “ante wager” is a mandatory wager made by each player. Each player must make an ante wager by placing one or more gaming chips in the designated ante betting area prior to any cards being dealt. Each player shall make an ante wager if the player wishes to be in direct competition with the dealer. The ante wager must be made prior to any player receiving a card from the dealer.

(2) The players and the dealer receive their cards. Each player may elect to fold or play against the dealer. If the player elects to fold, the ante wager is forfeited. If the player elects to compete with the dealer, the player shall place a wager in the designated play betting area (a “play wager”). The play wager shall be equal to the ante wager.

(3) If the dealer has a qualifying hand (a “qualifying hand” means a queen high card or better hand) and the player’s hand outranks the dealer’s hand the player is paid odds of 1 to 1 on the ante wager and the play wager.

(4) If the player’s hand ties the dealer’s qualifying hand, both the player’s ante wager and play wager are a push or tie, and no amount is paid to the player or taken by the dealer.

(5) If the dealer’s hand does not qualify (is ranked less than queen high), the player is paid odds of 1 to 1 on the ante wager and the play wager is a push.

(6) If the dealer’s qualifying hand outranks the player’s hand, the player loses and the ante and play wagers are collected accordingly.

(7) If the dealer has a hand higher than the player’s hand, it has no effect on the ante bonus if the player has

placed a play wager and has a qualifying hand for the ante bonus. Ante bonuses pay odds as follows:

Straight	1 to 1	A straight shall be any three cards in numeric sequence
Three of a kind	4 to 1	Three of a kind shall be three cards of the same value
Straight flush	5 to 1	A straight flush shall be three same suited cards in numeric sequence

(8) Each player may also elect to make a pair plus wager by placing one or more gaming chips in the designated pair plus betting area prior to any card being dealt. The pair plus wager shall not be less than the table minimum, nor greater than the table maximum. The “pair plus wager” is an optional wager on the outcome of the player’s hand against a posted scale of payouts without competition against any other hand.

(9) Each player and dealer receive their cards. The player may elect to fold or play. If the player elects to fold, the pair plus wager is forfeited. If the player elects to compete with the dealer, the player shall place a wager in the designated play betting area. The play bet shall be equal to the ante wager.

(10) If the dealer has a hand higher than the player’s hand, it has no effect on the pair plus wager, if the player has placed a play wager and has a qualifying hand for the pair plus payout.

(11) The pair plus payout odds will be as follows:

Pair	1 to 1	A pair shall be two cards of the same value
Flush	3 to 1	A flush shall be three cards of the same suit
Straight	6 to 1	A straight shall be three cards in numeric sequence
Three of a kind	30 to 1	Three of a kind shall be three cards of the same value
Straight flush	40 to 1	A straight flush shall be three cards in numeric sequence, all in the same suit

(12) Before each hand is dealt, the dealer shall inform the player(s) that wagering is closed by announcing there will be no more bets.

(13) All wagers shall be made by placing gaming chips on the appropriate areas of the layout. Verbal and/or cash wagers shall not be accepted.

(14) Once the first card of any hand has been dealt, no player shall handle, remove, or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager except as explicitly permitted by these rules.

(15) If offered at the three-card poker table, a player making a three-card poker wager may also make an optional six card bonus side wager.

(16) An additional six card bonus wager may be made by the player prior to the first card of the round being removed from the shoe in an area designated for the six card bonus side wager.

(17) To begin each round, a player must make his or her three-card poker wager (ante) and any optional wagers the player chooses to make, including the six card bonus wager.

(18) The dealer then follows normal procedures for dealing the three-card poker game.

(19) The six card bonus wager utilizes the three cards dealt to the player's hand and the three cards dealt to the dealer's hand. A player then uses any of those six cards, regardless of the number of cards used from their hand or the dealer's hand, to make the best possible five card poker hand.

(20) If the player's hand qualifies for a payout, the player is paid according to the following pay table:

Royal flush	1,000 to 1
Straight flush	200 to 1
Four-of-a-kind	50 to 1
Full house	25 to 1
Flush	15 to 1
Straight	10 to 1
Three-of-a-kind	5 to 1

(21) If the player's hand does not qualify for a payout, the dealer collects the six card bonus wager.

(22) The dealer will pay all winning six card bonus wagers and will collect all losing six card bonus wagers.

(23) The six card bonus wager may win or lose regardless of the outcome of the ante wager. The six card bonus wager shall not be forfeited if the player folds his or her hand and does not place a play wager.

(24) A player who has made a winning six card bonus wager shall only receive the payout for the highest ranking five-card poker hand that can be formed with the cards of the player and dealer.

(25) A six card bonus wager shall have no bearing upon the outcome of any other wager made by a player at the game of three card poker, and no other wager made by a player at the game of three card poker shall have any bearing upon the outcome of a six card bonus wager made by a player. (Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective, T-111-12-22-11, Oct. 12, 2011; amended T-111-3-7-18, Jan. 17, 2018.)

111-501-25. Shuffle, dealing, play, and payment of wagers. (a) The cards will be shuffled by an auto shuffle machine. In the event the automatic shuffler is not operational or for tournaments the cards may be shuffled by hand.

(b) After the cards have been shuffled, the dealer shall cut the deck by dividing the cards into two portions at a randomly selected place in the deck.

(c) The cards are placed into the shuffler without a player cutting them. The shuffler will complete the shuffle. Players will never cut the cards.

(d) After the dealer has announced that no more bets can be made, the dealer shall activate the shuffle machine which shall deal three cards out for each player at the gaming table, including the dealer. Beginning with the player to the extreme left of the dealer and rotating to the right, the dealer shall fan out each player's cards face down in front of the player's bet.

(e) Once each player and the dealer have received their cards, the shuffle machine shall count the remaining cards to verify that the deck contained 52 cards.

(f) Once the machine has completed the count, the dealer removes the remaining cards from the shuffler and places them in the discard rack.

(g) The dealer then announces that the players may look at their hands.

(h) Players then decide if they wish to play or fold.

(i) If a player has made the six card bonus wager and folds his or her hand, the dealer will remove the original three-card poker wager and place the player's cards under the six card bonus wager. Players are eligible to win the six card bonus wager even if the player folds his or her ante wager.

(j) The dealer shall verify that all remaining players, if any, have made the proper play wager.

(k) The dealer then turns over the dealer's cards and creates the best three card poker hand.

(l) If the dealer does not have a qualifying hand of queen high or better, the dealer announces the dealer has no qualifying hand and pays all outstanding player wagers.

(m) If the dealer does have a qualifying hand, the dealer compares his hand to each player's hand individually and the highest three card poker hand wins. All winning wagers are paid. All losing wagers are collected. As the cards are removed they are counted and placed in the discard rack. The dealer compares, pays, and collects wagers right to left.

(n) The dealer must spread the cards, take all losing wagers and pay all winning wagers and then place the cards in the discard rack on each hand before the dealer goes to the next player. (Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective, T-111-12-22-11, Oct. 12, 2011; amended T-111-3-7-18, Jan. 17, 2018.)

All suits shall be considered equal in rank. Notwithstanding the foregoing, an ace may also be used to complete a "straight flush" in combination with a 2 card and 3 card. The only permissible hands in the game of High Card Flush are certain straight flushes and flushes.

(b) The permissible straight flushes in order of highest to lowest rank, shall be as follows:

(6) "Two card flush" is a hand consisting of two cards of the same suit not in consecutive ranking, with ace and queen being the highest ranking two card flush and 3 and ace being the lowest ranking two card flush.

(d) When comparing two hands that are of identical rank, the hand that contains the highest ranking card that is not contained in the other hand shall be considered the higher ranking hand. If the hands are of identical rank after the application of this comparison, the hands shall be considered a tie or draw and any ante wager and play wager are returned to the player. (Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective T-111-12-05-17, Oct. 11, 2017; amended T-111-3-7-18, Jan. 17, 2018.)

111-501-142. Wagers. (a) The following wagers may be placed in the game of High Card Flush:

(1) In order to participate in a round of play, before any cards are dealt a player must place an ante wager that is in any amount within the minimum and maximum wagers posted at the table.

(2) After examination of his or her cards, each player who has placed an ante wager shall have the option to either forfeit the ante wager and end his or her participation against the dealer's hand or compete against the dealer. If a player chooses to compete against the dealer, the player must place one of the following raise wagers:

(A) if the player's hand contains fewer than five (5) cards of the same suit, the raise wager must be in the same amount as the player's ante wager;

(B) if the player's hand contains five (5) or more cards of the same suit, the raise wager may be in any amount up to two times the player's ante wager; or,

(C) if the player's hand contains six (6) or seven (7) cards of the same suit, the raise wager may be in any amount up to three times the player's ante wager.

(3) A player placing an ante wager may also compete against a payable by placing a flush bonus wager and/or straight flush bonus wager in any amount within the minimum and maximum wagers posted at the table; or,

(4) A player may compete against both the dealer and the payable by placing wagers in accordance with the requirements of (a)(1), (a)(2) and (a)(3) above.

(b) All wagers at High Card Flush shall be made by placing gaming chips or authorized coupons on the appropriate betting areas of the game table layout.

(c) Only players who have placed wagers at a gaming position at a High Card Flush game table are eligible to receive cards.

(d) No wager shall be made, increased, or withdrawn after the first card has been dealt in that round of play.

(e) An additional wager may be made as a tip for the dealer on the ante wager, raise wager, flush bonus wager, and the straight flush bonus wager. In order to place a raise wager for the dealer, the player must have previously placed an ante wager as a tip for the dealer. (Authorized by K.S.A. 2017 Supp. 74-8710 and 74-8748; implementing K.S.A. 2017 Supp. 74-8710; effective T-111-12-05-17, Oct. 11, 2017; amended T-111-3-7-18, Jan. 17, 2018.)

111-501-143. Play. (a) The game of High Card Flush is played with a standard 52-card deck of playing cards.

(b) All ante wagers, flush bonus wagers and straight flush bonus wagers shall be placed prior to the first card being dealt in a round of play.

(c) A shuffling machine may be used in the game of High Card Flush. When a shuffling machine is used, the machine will deal seven (7) cards at a time. Beginning with the first player to the left of the dealer and continuing clockwise in order around the table, the dealer shall deal each player and the dealer seven (7) cards one card at a time face down. In the event a shuffling machine is not used and the dealer manually shuffles the cards, beginning with the first player to the left of the dealer who has placed an ante wager and continuing clockwise in order around the table, the dealer shall deal each player who has placed an ante wager and the dealer seven (7) cards one card at a time face down.

(d) After all cards have been dealt, each player may examine his or her cards. Each player who places a wager shall be responsible for his or her own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(e) After examination of his or her cards, each player who has placed an ante wager shall have the option to either forfeit the ante wager and end his or her participation against the dealer's hand or make a raise wager. A raise wager must be equal to the amount of the player's ante wager unless the player's hand consists of five (5) or more cards of the same suit. If the player's hand consists of five (5) or more cards of the same suit, the player may make a raise wager up to two (2) times the amount of the player's ante wager. If the player's hand consists of six (6) or seven (7) cards of the same suit, the player may make a raise wager up to three (3) times the amount of the player's ante wager. If a player has placed an ante wager along with a flush bonus wager and/or straight flush bonus wager but does not make a raise wager, the player shall forfeit the ante wager.

(f) After each player has either placed a raise wager on the designated area of the table or forfeited his or her wager and hand, the dealer shall collect all forfeited wagers and associated cards, placing them in the discard rack or automatic shuffling machine. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking hand available for the dealer's cards.

(g) The dealer shall then settle the wagers remaining on the table by performing the procedure in subsection (h) below. All cards collected during the procedure shall be placed in the discard rack or automatic shuffling machine.

(h) Starting with the player farthest to the dealer's right and continuing counterclockwise around the table the dealer shall:

(1) Reveal the cards of each remaining player, one player at a time;

(2) Determine the highest ranking hand of each remaining player;

(3) Collect all losing wagers;

(4) Pay each winning wager in accordance with the payout odds listed below; and,

(5) Collect all player cards and place them in the discard rack or automatic shuffling machine.

(i) All cards collected by the dealer shall be picked up in order and placed in the discard rack or automatic shuffling machine in such a way that they can be readily arranged to reconstruct each hand in the event of a question or dispute.

(j) There are three winning payout types, as follows:

(1) A player in competition against the dealer shall be paid at odds of one to one on both the ante wager and the raise wager if the player's hand is ranked higher than the dealer's hand, except that to win both wagers the dealer's hand must contain a flush containing a 9 or higher ranking card and the player's hand must be ranked higher than the dealer's hand. If the dealer does not hold a hand with a flush containing a 9 or higher ranking card, the player's ante wager shall automatically be paid at odds of one to one and the player's raise wager shall be returned to the player as a draw (tie).

(2) A player placing a flush bonus wager shall be paid at the following odds:

Four card flush	1 to 1
Five card flush	10 to 1

Six card flush	100 to 1
Seven card flush	300 to 1

(3) A player placing a straight flush bonus wager shall be paid at the following odds:

Three card straight flush	7 to 1
Four card straight flush	60 to 1
Five card straight flush	100 to 1
Six card straight flush	1000 to 1
Seven card straight flush	8000 to 1
