Kansas Permit No. P-LR15-0001

Federal Tracking No. KSP000084

Facility Name: Watco Mechanical Services

Facility Description: The proposed action is to issue an existing pretreatment permit for this facility. This facility repairs, rebuilds and manufactures new railcars. Approximately 2000 gallons per day of process wastewater is expected to be generated from the rail car cleaning process. Since this area does not have a roof, contaminated stormwater runoff also is considered process wastewater. Process wastes can be neutralized and treated using a DAF system, if necessary, before being discharged to the city sanitary sewer. The proposed permit includes limits for nonpolar material (SGT-HEM), fluoranthene, phenanthrene and pH, as well as monitoring of effluent flow. The permit limits are pursuant to state and federal pretreatment requirements.

Persons wishing to comment on the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments considered in the decision-making process. Comments should be submitted to the attention of the Livestock Waste Management Section for agricultural-related draft documents or applications, or to the Technical Services Section for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, 1000 S.W. Jackson, Suite 420, Topeka, 66612-1367.

All comments regarding the draft documents or application notices received on or before December 19 will be considered in the formulation of the final determinations regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-09-284, KS-Q-09-195, KS-PT-09-009) and name of the applicant/permittee when preparing comments.

After review of any comments received during the public notice period, the Secretary of Health and Environment will issue a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC).

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the Kansas Department of Health and Environment, Bureau of Water. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available on the Internet at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8 a.m. to 5 p.m. Monday through Friday, excluding holidays.
