PMC

This project is being managed by a Project Manager Consultant (PMC) on behalf of KDOT. The PMC will be the primary contact for the selected firm and will not be on the KDOT Consultant Selection Committee.

Schedule Reporting

Project schedules will be developed during project negotiation. A basic schedule template, prepared by the PMC, will be reviewed and specific dates will be defined by the consultant to achieve the critical milestones. Monthly schedule progress reports and updates will be required throughout the project from the consultants and reviewed with the PMC to track progress for KDOT.

Quality Control

Consultants will be required to provide a Quality Control (QC) plan at project kick-off. QC audits will be conducted by the PMC throughout the project. The audits will check compliance with the consultant's plan.

Bentley CONNECT Edition Software

Consultants will be required to prepare plans and digital deliverables using Bentley CONNECT Edition Software products with KDOT's CONNECT Edition work-space environment.

Schedule

This project is scheduled for a potential letting in FY 2026 (July 2025 – June 2026). Therefore, the design activities must be scheduled to deliver final plans no later than March 2026.

Instructions for Proposal

The main text of the consultant's proposal must not exceed eight (8) pages (including the cover letter) to address the topics listed in Table 2 below. The following outline is the expected submittal organization, content, and page length for the technical proposals. Duplication of content in technical proposals is expected.

Proposals submitted will also include completed and signed Special Attachment No. 8 ("Tax Clearance Certif-

No cost or pricing information shall be submitted with the proposal. Proposals including cost or pricing information will not be considered in the selection process to rank proposals.

Per standard KDOT consultant selection process, at least three (3) consultants will be shortlisted from the technical proposal submitted for the project. Technical proposals will be evaluated based on the factors listed in Table 3 below to select the most qualified firms. All evaluation factors are weighted equally.
