## Notice to Contractors

Electronic copies of the letting proposals and plans are available on the Kansas Department of Transportation (KDOT) website at <https://kdotapp.ksdot.org/Proposal/Proposal.aspx>. The website will allow the contractor to request approval from KDOT to bid as a prime contractor and be included on the “Bid Holders List,” or to be included on the “Non-Bid Holders List” as a subcontractor/supplier. KDOT’s approval is required to bid as a prime contractor. To bid as a prime contractor, KDOT needs to be notified of the intent to bid no later than the close of business on the Monday preceding the scheduled letting date. Failure to obtain prior approval to bid as a prime contractor on any projects listed below will be reason to reject your bid. The Secretary reserves the right to reject bids that do not comply with all requirements for preparing a bidding proposal as specified in the 2015 edition of the Kansas Department of Transportation Standard Specifications for State Road and Bridge Construction.

KDOT will only accept electronic internet proposals using the Bid Express website at <https://bidx.com/ks/main> until 1:00 p.m. (Central Time) on letting day. Each bidder shall certify that such person, firm, association, or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This certification shall be in the form of a required contract provision provided by the state to each prospective bidder. Failure to complete the required contract provision and certify the completeness of the preceding statement when electronically signing the proposal will make the bid nonresponsive and not eligible for award consideration.

The Bond(s) will be issued to assist the respective Borrower (the "Beginning Farmer") named below (who will be the owner and operator of the respective Project) to finance the cost in the amount of the Bond, which is then typically purchased by a lender bank ("Lender") who then through Kansas Development Finance Authority, loans the bond proceeds to the Borrower for the purposes of acquiring the respective Project(s) as described below. Each Project shall be located as shown:

**Project No. 001170 Maximum Principal Amount: \$167,500.** Owner/Operator: Tyson and Kaitlin Hynek; Description: Acquisition of 80 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Tyson and Kaitlin Hynek (the "Beginning Farmer") and is located in Section 14, Elk Creek Township, Republic County, Kansas, approximately 2 miles east of Agenda, Kansas on K-148 Hwy.

Each Bond when issued, will be a limited obligation of the Kansas Development Finance Authority and will not constitute a general obligation or indebtedness of the State of Kansas or any political subdivision thereof, including the Authority, nor will it be an indebtedness for which the faith and credit and taxing powers of the State of Kansas are pledged, but each Bond will be payable solely and only from amounts received from the respective Borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on each Bond as and when it shall become due.

Interested individuals may participate in the public hearing in person or via conference call. Please call 844-621-3956 and use conference identification number 145 880 8929 followed by # to join the conference.

At the time and place fixed for the hearings, all individuals who appear will be given an opportunity to express their views for or against the proposal to issue any specific Bond for the purpose of financing the respective Project, and all written comments previously filed with the Authority at its offices at Suite 800, 534 S. **Article 501.—SOUTH CENTRAL GAMING ZONE**

- 111-501-5. Wagers.** (a) Prior to the first card being dealt for each round of play, each player at the game of blackjack shall make a wager against the dealer. The player's wager shall win if:
- (1) The value of the player's cards totals 21 or less and the dealer's cards total in excess of 21.
  - (2) The value of the player's cards total more than the dealer's cards without exceeding 21.
  - (3) The value of the player's initial two cards totals 21 and the value of the dealer's three or more cards totals 21.
- (b) Except as otherwise provided, a wager will be pushed (declared a tie) when the value of the player's cards is equal to the value of the dealer's cards.
- (c) A player's wager shall be lost when:
- (1) The value of the dealer's cards totals 21 or less and the value of the player's cards totals 22 or more.

- (2) The value of the dealer's cards total more than the value of the player's cards without exceeding 21.
- (3) The dealer has a total value of 21 in his/her initial two cards and the player has a total of 21 in more than two cards.
- (d) Except as otherwise provided, no wager shall be made, increased or withdrawn from the table after the first card of the respective round has been dealt.
- (e) All wagers on blackjack will be made by placing gaming chips on the betting areas of the blackjack layout. Money or chips outside or between betting areas do not constitute a valid bet. Verbal and cash wagers will not be accepted.
- (f) All winning wagers will be paid at odds of one to one, with the exception of blackjack, which will be paid at odds of three to two or six to five depending on the table configuration, and insurance which shall be paid at odds of two to one. Approved blackjack table game layouts will clearly state whether the game pays three to two or six to five blackjack odds.
- (g) Once the first card of any hand has been removed from the dealer's shoe or dealt by the dealer, no player may handle, remove or alter any wagers that have been made until the dealer renders and implements a decision with respect to that wager.
- (h) Once a wager has been placed on the insurance line, or a wager to double down or a wager to split pairs has been made and confirmed by the dealer, then no player shall handle, remove or alter such wagers until the dealer renders and implements a decision with respect to that wager.
- (i) At all tables where the wager and entry restrictions are in effect, a sign will be posted notifying the players of the restrictions. The sign(s) shall indicate as the following:
  - (1) Mid-shoe entry prohibited until shuffle.
  - (2) Minimum and maximum table limits will be posted. Any wager made by a player that is less than the stated table minimum that is not rejected by either the dealer or table games supervisor or higher-ranking casino official prior to the commencement of play shall be treated as a valid wager in the amount actually wagered by the player. Any wager made by a player that is above the stated table maximum that is not rejected by either the dealer or table games supervisor or higher-ranking casino official shall play up to the posted maximum and the balance shall be returned to the player and not considered as part of the valid wager. (Authorized by K.S.A. 2024 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2024 Supp. 74-8710; effective, T-111-6-23-11, Aug. 17, 2011; amended, T-111-4-25-25, April 9, 2025.)

**111-501-6. Rules of the game.** (a) The cards shall be shuffled under the following circumstances:

- (1) A new set of decks are put into play.
  - (2) When the cut card appears during the course of the play, in which case the shuffle will take place prior to the next round of play.
  - (3) Whenever the cards have been dropped or otherwise mishandled.
  - (4) Whenever instructed to do so by the table game supervisor or higher-ranking casino official.
  - (5) At no time will the dealer shuffle at the request of a player unless authorized to do so by a table games supervisor or higher-ranking casino official.
- (b) The dealer is to maintain physical and visual contact with the deck at all times while the deck is out of the

shoe; however, the cards shall be placed back in the dealer's shoe for commencement of play.

(c) A card shall be burned for the following reasons:

(1) After a shuffle of the cards.

(2) A card has been exposed or dealt by mistake unless the card was exposed or dealt by mistake to the player who acts immediately prior to the dealer.

(3) When a dealer is relieved, the new dealer shall burn a card.

(4) If there are players at the table, upon the arrival of new players, the dealer shall burn a card.

(d) All cards shall be dealt from a dealing shoe secured to and located on the extreme left-hand side of the table.

(e) All players' cards should be delivered face up, starting on the dealer's left and continuing clockwise around the table.

(f) After each player has received one card, the dealer shall take one card face down. A second card should be dealt to each player face up and the dealer's final card will also be dealt face down. The dealer will turn the first dealt dealer card face up after dealing the second dealer card. The second card should be placed underneath the first card which is now turned face up and should cover the hole card in such a way that no part of that card is visible.

(g) A player may elect to double down with any initial two cards, and bet up to the amount of his original bet on the condition that only one additional card shall be dealt to the player.

(h) The additional chips for the double-down bet should be placed next to the original wager before the double down card is dealt.

(i) The double down card will be exposed and placed across the two cards involved, in such a manner as to keep the number exposed on the player's second card.

(j) When paying double down bets, the bet is not combined into one stack and the stack is not sized into the other stack. The dealer is not permitted to move the player's bet with chips in the dealer's hand.

(k) Whenever the initial two cards to a player are of the same face value, the player may elect to split the cards into two separate hands, provided that the player makes a bet equal to the original bet. The following rules apply to splitting cards:

(1) After splitting, the first hand will receive a card. This hand will be completed by either hitting again or staying before the next hand is dealt to.

(2) The second hand will receive a card. This hand will be completed by either hitting again or staying before moving on to the next hand.

(3) A player may split up to three times excluding aces that may only be split once. When aces are split, the player will only receive one card per ace.

(l) The dealer will ask if any player wishes to place an insurance bet when the dealer's card dealt face up is an ace.

(m) Insurance is a separate bet. The player is betting that the dealer has blackjack. If the dealer does not have blackjack, then the player loses the player's insurance bet.

(n) The player can take insurance for any amount up to one-half of the original bet.

(o) The insurance bet shall be placed on the insurance line on the table layout.

(p) The dealer will then verbally close the time for accepting insurance bets.

(q) If the dealer's hand is a blackjack and the player has taken insurance, the dealer will take the losing bet and pay off the winning insurance bet with it in an amount not to exceed the player's original bet. Insurance will be paid at a rate of 2 to 1.

(r) If the player's hand is a blackjack and the dealer's card dealt face up is an ace, the player can announce even money and be paid the amount of the player's bet.

(s) Players may insure a token bet and the bet is handled by the same procedure as any other insurance bet.

(t) A player may place more than one-half of their original bet on the insurance line but only one-half of their original bet is in action. Any overage will be returned to the player after it is determined that the dealer does or does not have blackjack.

(u) All blackjacks will be paid at odds of three to two or six to five depending on the table configuration. Approved blackjack table gaming layouts shall clearly state whether the game pays three to two or six to five blackjack odds. The dealer shall pay the player having a blackjack during the normal course of the dealer's take and pay procedures. If the dealer and a player have blackjack, the player's bet will be a tie.

(v) If the dealer looks at the dealer's hole card and fails to recognize the fact the dealer has a blackjack, the dealer's hand will be played as a total of 21 only, and not as a blackjack. A player that doubles down or splits will receive back any additional wagers made after their initial wager.

(w) Any player's hand that exceeds a total of 21 has broke or busted and their hand loses.

(x) If the dealer has a card dealt face-up with the value of 10, the dealer will use the peeking device built into the gaming table to check to see if the dealer has a blackjack. If the dealer has an ace dealt face up, the dealer shall offer an insurance wager to all players at the table. After all players have either made or declined to make an insurance wager the dealer will use the peeking device built into the gaming table to check to see if the dealer has a blackjack.

(y) If the dealer has a blackjack, all losing bets will be collected and all blackjacks will tie.

(z) If the dealer does not have a blackjack, the hand will continue as normal.

(aa) A card found turned upwards in the shoe shall not be used in that game and shall be placed in the discard rack.

(bb) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(cc) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, such card shall be burned or placed in the discard rack and will not be offered to any player or to the dealer unless the card was exposed or dealt by mistake to the player who acts immediately prior to the dealer. In that case, if the card is needed by the dealer to complete the dealer's hand, then the card shall be retained by the dealer. If the card is not needed by the dealer to complete the dealer's hand, then the card shall be burned.

(dd) If the dealer has a point total of a hard 17 or more and accidentally draws a card for the dealer, such card shall be burned.

(ee) If the dealer misses dealing his first or second card to the dealer, the dealer shall continue dealing the first two cards to each player, and then deal the appropriate number of cards to the dealer.

(ff) If there are insufficient cards remaining to complete a round of play, all of the cards in the discard rack shall be shuffled and cut, the first card shall be drawn face-down and burned, and the dealer shall complete the round of play.

(gg) If no cards or only one card is dealt to a player's hand, the hand is dead and the player shall be included in the next deal.

(hh) If any card is dealt and an error occurs, at no time will any card be backed up as a result of the error.

(ii) If a dispute occurs because of a mistake during a hand, the table games supervisor or higher-ranking casino official shall be authorized to declare that all or part of the hand is void and can return any disputed money.

(jj) If offered at the blackjack table, a player making a blackjack wager may also make an optional three-card poker wager or TriLux wager in the area on the table designated for that optional wager so long as the wager is made prior to the first card of the hand being removed from the shoe.

(kk) If a player makes an optional three-card poker wager or TriLux wager, the player may also make a three-card poker wager or TriLux wager as a tip for the dealer so long as the tip wager is made prior to the first card of the hand being removed from the shoe.

(ll) Resolution of all optional three-card poker wagers or TriLux wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues.

(mm) An optional three-card poker wager or TriLux wager will win if the dealer's card dealt face up and the player's two cards combined equal one of the following three- card poker hands:

(1) A "flush," which means three cards of the same suit;

(2) A "straight," which means three cards of consecutive rank, with the ranking of cards from lowest to highest being 2, 3, 4, 5, 6, 7, 8, 9, 10, jack, queen, king, and ace, except that an ace can also be used with a 2 and 3 to make a straight;

(3) A "three-of-a-kind," which means three cards of the same rank; and,

(4) A "straight flush," which means a "straight" as defined hereinabove, when all three cards are in the same suit.

(nn) An optional three-card poker wager or TriLux wager will lose if the dealer's card dealt face up and the player's two cards combined do not equal one of the three-card poker hands listed in subsection (mm).

(oo) All winning three-card poker wagers or TriLux wagers shall be paid at the rate of nine to one.

(pp) All three-card poker wagers or TriLux wagers shall be taken or paid from the dealer's right to left before the blackjack portion of the game continues.

(qq) If offered at the blackjack table, a player making a blackjack wager and a three-card poker wager or TriLux wager may also make an optional Top 3 wager or Super TriLux wager in the area on the table designated for that optional wager so long as the wager is made prior to the first card of the hand being removed from the shoe.

(rr) If a player makes an optional Top 3 wager or Super TriLux wager, the player may also make a Top 3 wager or Super TriLux wager as a tip for the dealer so long as the tip wager is made prior to the first card of the hand being removed from the shoe.

(ss) Resolution of all optional Top 3 wagers or Super TriLux wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues.

(tt) An optional Top 3 wager or Super TriLux wager will win if the dealer's card dealt face up and the player's two cards combined equal one of the following three-card poker hands:

1. A suited three-of-a-kind consisting of three cards of the same rank and suit, which pays at odds of 270 to one;
2. A straight flush consisting of three cards of consecutive rank all in the same suit, with the ranking of cards from lowest to highest being 2, 3, 4, 5, 6, 7, 8, 9, 10, jack, queen, king, and ace, except that an ace can also be used with a 2 and 3 to make a straight flush, which pays at odds of 180 to one; and
3. A three-of-a-kind which means three cards of the same rank but in at least two different suits, which pays at odds of 90 to one.

(uu) An optional Top 3 wager or Super TriLux wager will lose if the dealer's card dealt face up and the player's two cards combined do not equal one of the three-card poker hands listed in subsection (tt).

(vv) All three-card poker wagers or TriLux wagers shall be taken or paid from the dealer's right to left before the blackjack portion of the game continues.

(ww) If offered at the blackjack table, a player making a blackjack wager may also make an optional king's bounty deluxe side wager in the area on the table designated for that optional wager so long as the wager is made prior to the first card of the round being removed from the shoe.

(xx) An additional king's bounty deluxe wager may be made by the player prior to the first card of the round being removed from the shoe in an area designated for the king's bounty deluxe wager as a tip for the dealer.

(yy) To begin each round, a player must make his or her blackjack wager and any optional wagers the player chooses to make, including the king's bounty deluxe wager.

(zz) The dealer then follows normal procedures for dealing the game of blackjack.

(aaa) All king's bounty deluxe wagers shall be settled as follows:

(1) The king's bounty deluxe wagers will be settled immediately after all players and the dealer receive their first two cards, except that if a player has two kings of spades and the dealer has a potential blackjack, the dealer will settle that king's bounty deluxe wager at the end of the round of play;

(2) If the dealer has a potential blackjack, the dealer will then check the dealer's hole card;

(3) If the dealer has a blackjack, the player will not have the option of adding to their blackjack wager; and,

(4) If the dealer does not have a blackjack, players will have the options as described in subsections (ccc) and (ddd) herein.

(bbb) A king's bounty deluxe wager will win and be paid at the following odds if the player's first two cards are as follows:

- (1) Two kings of spades and the dealer has a blackjack pays 1,000 to one;
- (2) Two kings of spades and the dealer does not have a blackjack pays 75 to one;
- (3) Two kings of the same suit, other than spades, pays 25 to one;
- (4) Two 10's, two jacks or two queens of the same suit pays 10 to one;

(5) Suited 20, two cards of the same suit whose sum equals 20, pays six to one;

(6) Two kings not of the same suit pays four to one; and,

(7) Unsuited 20, which consists of two cards not of the same suit whose sum equals 20, pays two to one.

(ccc) Players who win a king's bounty deluxe wager, other than players that have two kings of spades when the dealer has a blackjack, shall then have the option to either collect that wager and winnings or place any amount up to the entire king's bounty deluxe wager and winnings on the player's original blackjack wager, but the cumulative total of the amount so added plus the original blackjack wager may not exceed the table limits.

(ddd) Players who win a king's bounty deluxe wager and apply all or part of the winnings to their original blackjack wager will have this cumulative amount considered to be their blackjack wager. If the player eventually splits pairs, the player must match the entire wager. If the player doubles down, the player may wager any amount up to a maximum of the player's original wager.

(eee) If offered at the blackjack table, a player making a blackjack wager may also make an optional royal match deluxe wager in the area on the table designated for the optional wager so long as the wager is made prior to the first card of the hand being removed from the shoe.

(fff) If a player makes an optional royal match deluxe wager, the player may also make a royal match deluxe wager as a tip for the dealer so long as the tip wager is made prior to the first card of the hand being removed from the shoe.

(ggg) Resolution of all optional royal match deluxe wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues.

(hhh) A royal match deluxe wager will win if both of the player's two cards are in the same suit. A royal match deluxe wager will lose if both of the player's two cards are not in the same suit.

(iii) Winning royal match deluxe wagers shall be paid at odds of two to one, unless the two cards are a king and queen of the same suit, in which case the player's wager shall be paid at odds of 15 to one.

(jjj) The dealer will then check the dealer's hole card. If the dealer's hand constitutes a blackjack, the dealer must pay the player his or her wager and winnings on the royal match deluxe wager.

(kkk) If the dealer's hand does not constitute a blackjack, a player winning a royal match deluxe wager shall have the following options:

(1) The player may collect the player's royal match deluxe wager and winnings; or,

(2) The player may place any or all of the player's royal match deluxe wager and winnings on their blackjack wager, except that the total amount of the blackjack wager may not exceed the maximum blackjack wager allowed for that hand of blackjack. If any portion of the royal match deluxe wager and winnings is not added to the player's blackjack wager, that portion shall be paid to the player. A player may add to the player's blackjack wager as set forth herein even if the player's hand constitutes a blackjack.

(III) If a player adds any or all of the player's royal match deluxe wager and winnings to the blackjack wager, the amount added plus the original blackjack wager will then become the player's blackjack wager for that hand. If during that hand of blackjack the player splits pairs, the player must match that entire wager. If during that hand of blackjack the player doubles down, the player must place an additional wager in any amount that does not exceed the amount of the amount added plus the original blackjack wager.

(mmm) Only the dealer shall touch the gaming chips in order to add all or any portion of a winning royal match deluxe wager to a player's blackjack wager, per the instructions of that player.

(nnn) If offered at the blackjack table, a player making a blackjack wager may also make an optional \$5 or \$25, or both a \$5 and \$25, blazing 7's progressive wager in the area on the table designated for the optional wager so long as the wager is made prior to the first card of the hand being removed from the shoe.

(ooo) Resolution of all optional blazing 7's progressive wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues. If a taxable jackpot hand is won, payouts will be resolved after the hand.

(ppp) A blazing 7's progressive wager will win if at least one of the first two cards dealt to a player is a 7 card. A blazing 7's progressive wager will lose if neither of the player's first two cards are a 7 card. For purposes of resolving blazing 7's progressive wagers, only the first two cards dealt to the player and the card dealt face up to the dealer are used.

(qqq) Winning blazing 7's progressive wagers shall be paid as follows:

Hand	Pays
Player has two 7 cards and dealer has one 7 card, and all three cards are in the same suit	100% of progressive pool
Player has two 7 cards and dealer has one 7 card, and all three cards are in the same suit color, but not the same suit	10% of progressive pool
Player has two 7 cards and dealer has one 7 card, but not all are in the same suit or in the same suit color	200 for 1
Player has two 7 cards and the dealer has no 7 cards	25 for 1
Player has one 7 card	2 for 1

For purposes of determining the same suit color, the suits of diamonds and hearts are both of the same red suit color and the suits of spades and clubs are both of the same black suit color.

(rrr) The blazing 7's progressive pool seed amount and re-seed amount shall begin at \$10,000 for the \$5 progressive wager and \$50,000 for the \$25 progressive wager to be paid by the lottery gaming facility manager. From each blazing 7's progressive wager 24% shall be added to the progressive pool. The progressive pool shall only be re-seeded after the 100% progressive prize is paid.

(sss) If offered at the blackjack table, a player making a blackjack wager may also make an optional EZ Bust wager in the area on the table designated for the optional wager if the dealer's card dealt face up is a 2, 3, 4, 5, or 6. Betting limits on the EZ Bust wager will be posted at the table.

(ttt) Resolution of all EZ Bust wagers shall be made during the main bet pay and take sequence.

(uuu) An EZ Bust wager will win if the dealer draws at least one card resulting in a total of more than 21 when following the approved hit rules of the game of blackjack. An EZ Bust wager will lose if the dealer draws to 21 or less when following the approved hit rules of the game of blackjack. The main blackjack wager results have no impact on EZ Bust wagers. If all players bust or have blackjack and there is no need to draw additional dealer cards, the EZ Bust wager will tie.

(vvv) Winning EZ Bust wagers shall be paid at odds of one to one.

(Authorized by K.S.A. 2024 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2024 Supp. 74-8710; effective, T-111-9-23-11, Aug. 17, 2011; amended, T-111-12-20-13, Nov. 13, 2013; amended, T-111-5-20-15, April 15, 2015; amended, T-111-8-9-17, June 14, 2017; amended, T-111-6-1-22, May 11, 2022; amended, T-9-27-23, Sept. 6, 2023; amended, T-111-4-25-25, April 9, 2025.)

**111-501-9. Payment of blackjack.** The following procedures will be adhered to for paying for a blackjack:

(a) If the first face up card dealt to the dealer is a 2, 3, 4, 5, 6, 7, 8, or 9 and a player has a blackjack, the dealer shall pay the blackjack at odds of 3 to 2 or 6 to 5 depending on the table configuration. Approved blackjack table game layouts will clearly state whether the game pays 3 to 2 or 6 to 5 blackjack odds. The dealer shall pay the player having a blackjack during the normal course of his or her take and pay procedures.

(b) If the first card dealt to the dealer is a king, queen, jack, or ten, the dealer will “peek” at the hole card (down card) utilizing the device on the table used for said purpose. If the dealer’s hole card does not create a blackjack, the player having blackjack shall be paid in proper order at odds of 3 to 2 or at odds of 6 to 5 depending on the table configuration. If the Dealer’s “hole card” creates a blackjack, the wager of a player having blackjack shall be void and constitute a push. All other player wagers will lose. If the dealer does not have blackjack, the dealer will act on all hands as necessary and then pay, take or push the players’ hands in the proper order.

(c) If the first card dealt to the dealer is an ace and the player has blackjack, the player may elect to be paid even money. This option must be exercised by the player with the blackjack prior to any other cards being dealt to other hands. If exercised, the dealer shall pay the player even money, remove the cards from the layout and place them in the discard rack before peeking or acting on any other player’s hands. (Authorized by K.S.A. 2024 Supp. 74-8710 and K.S.A. 74-8748; implementing K.S.A. 2024 Supp. 74-8710; effective, T-111-9-23-11, Aug. 17, 2011; amended, T-111-12-22-11, Oct. 11, 2011; amended, T-111-4-25-25, April 9, 2025.)
