- Symbol of a Bonus Cauldron

Prize and bonus prize symbols shall be randomly assigned at the time of purchase and may appear in any combination that equals any prize described in paragraph (i).

(c) For this game, there shall be three play spots in each play area. A player may purchase up to five play areas at a time, which shall all be of the same denomination. Each play area shall remain dim until selected or purchased by the player as described in paragraph (f).

(d) Each pool shall consist of 1,000,000 shares and consist of a single denomination as defined by the prices in paragraph (e).

(e) The price for a share of this game shall be \$1.00, \$2.00, \$3.00, \$5.00, or \$6.00, multiplied by the number of play areas purchased at the time of play.

(f) "Cauldron Me Crazy" is a symbol reveal game with a bonus play feature. The player may purchase a share of this lottery game by selecting a denomination defined in paragraph (e) and then selecting between one and five play areas to play at the time of purchase. The player may purchase the game by pressing the "Play" icon. The player may reveal the play symbols in each purchased play area by manually clicking on each symbol, or by clicking on the "Reveal All" icon. If the player reveals two "Potion" symbols and a "Cauldron" symbol in a single play area, the player wins the prize shown in that cauldron. If any potion in a winning play area is a "Multiplier Potion," the prize will be multiplied by that multiplier. If the player reveals two "Potion" symbols and a "Bonus Cauldron," the player will play a bonus game. In the bonus game, the player will click on one of three eyeballs. Each eyeball will drop through a plinko-style maze and land in a cauldron with a prize amount displayed. One cauldron will also display the word "Collect." The player will click on the eyeballs until one lands in the "Collect" cauldron, at which time the bonus game ends. The player will win the total of the prizes displayed in the cauldrons into which an eyeball falls during the bonus game. Each bonus game will win at least one prize.

(g) The total number of prizes and bonus prizes in any winning game may be variable but shall equal any prize described in paragraph (i).

(h) This lottery game shall consist of approximately 25,000,000 shares, with each pool of approximately 1,000,000 shares defined by a single denomination and number of play areas. Additional orders shall have the same prize structure, the same number of prizes per prize pool of 1,000,000 shares, and the same odds as were contained in the initial order.

(i) Each prize shall be calculated by multiplying the prize multiplier by the game denomination by the number of play areas purchased. The expected number and value of prizes in this game shall be as follows:

Denomination					Number of Prizes in Pool:	Odds to Win (1 in:)
\$1.00	\$2.00	\$3.00	\$5.00	\$6.00
