Department of Transportation

Notice to Contractors

Electronic copies of the letting proposals and plans are available on the Kansas Department of Transportation (KDOT) website at <https://kdotapp.ksdot.org/Proposal/Proposal.aspx>. The website will allow the contractor to request approval from KDOT to bid as a prime contractor and be included on the “Bid Holders List,” or to be included on the “Non-Bid Holders List” as a subcontractor/supplier. KDOT’s approval is required to bid as a prime contractor. To bid as a prime contractor, KDOT needs to be notified of the intent to bid no later than the close of business on the Monday preceding the scheduled letting date. Failure to obtain prior approval to bid as a prime contractor on any projects listed below will be reason to reject your bid. The Secretary reserves the right to reject bids that do not comply with all requirements for preparing a bidding proposal as specified in the 2015 edition of the Kansas Department of Transportation Standard Specifications for State Road and Bridge Construction.

KDOT will only accept electronic internet proposals using the Bid Express website at <https://bidx.com/ks/main> until 1:00 p.m. (Central Time) on letting day. The KDOT bid letting will be conducted remotely by audio broadcast only at 3:00 p.m. (Central Time) on letting day. For the conference call information see <https://www.ksdot.org/bureaus/burconsmain/lettinginfo.asp>. KDOT has tested the process, but in the event of an unforeseen issue, KDOT will provide updates.

Each bidder shall certify that such person, firm, association, or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This certification shall be in the form of a required contract provision provided by the state to each prospective bidder. Failure to complete the required contract provision and certify the completeness of the preceding statement when electronically signing the proposal will make the bid nonresponsive and not eligible for award consideration.

Notice of Hearing on Proposed Administrative Regulation

The Kansas Department of Health and Environment (KDHE), Bureau of Community Health Systems, will conduct a public hearing at 10:00 a.m., December 1st, 2025, in the Azure Conference Room, Curtis State Office Building, 1000 SW Jackson St., Topeka, Kansas, to review and consider the adoption of proposed amended regulation K.A.R. 28-53-3.

The time period between the publication of this notice and the scheduled public hearing constitutes a comment period of at least 60 days for the purpose of receiving written comments on the proposed regulation. This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the public hearing to Amy Swanson, Kansas Department of Health and Environment, Bureau of Community Health Systems, 1000 SW Jackson St., Suite 340, Topeka, KS 66612, by phone at 785-296-8113, or by email to Amy.S.Swanson@ks.gov. All interested parties will be given reasonable opportunity to present their views orally regarding the adoption of the proposed regulations during the public hearing. To provide all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. It is requested that each individual giving oral comments also provide a written copy of the comments for the record.

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the regulations and economic impact statements in an accessible format. Requests for accommodation to participate in the public hearing should be made at least 10 business days in advance of the hearing by contacting the appointed agency contact using the contact information provided.

Copies of the proposed regulation and the economic impact statement can be requested by contacting the appointed agency contact at the contact information provided.

A summary of the proposed regulation and its estimated economic impact follows:

Summary of Regulation

K.A.R. 28-53-3. Eligibility criteria for a medically indigent person. The proposed amendment raises the income eligibility threshold for the Charitable Healthcare Provider Program from 200% to 300% of the Federal Poverty Level (FPL). This change brings Kansas more in line with neighboring states, some of which do not set income limits as long as care is provided free of charge. The adjustment is not expected to create any cost impact for businesses, individuals, or local governments.

Economic Impact

The proposed regulation raises the income eligibility threshold for indigent care from 200% to 300% of the FPL to be covered within the Charitable Healthcare Provider Program. This change aligns Kansas with neighboring states like Missouri and Nebraska, which do not impose any income cap for charitable care eligibility, only requiring that care be provided free of charge. Additionally, there are no similar federal programs specifically for healthcare providers offering tort claims indemnity to charitable healthcare providers, nor are there comparable programs in Oklahoma or Colorado. This increase in the threshold is not anticipated to have a cost impact on businesses, sectors, public utility ratepayers, individuals, or local governments.

K.A.R. 92-52-1 largely duplicates K.S.A. 8-295 and should be revoked to remove an unnecessary regulation. Section I of the Economic Impact Statement for these proposed regulations summarizes the proposed changes.

The Department does not anticipate any significant economic or environmental impact on businesses, local governments, or individuals because of the changes to these regulations. Copies of the proposed regulations and the Economic Impact Statement may be found online at <https://www.ksrevenue.gov/prproposedregulations.html>, or by contacting Taylor Murray at taylor.murray@ks.gov.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written comments from the public on the proposed regulations. All interested parties may submit written public comments prior to the hearing to Taylor Murray, Office of Policy and Research, Mills Building, 109 SW 9th St., Topeka, KS 66601-3506 or taylor.murray@ks.gov. Additionally, interested parties wanting to participate remotely may contact Taylor Murray at taylor.murray@ks.gov to obtain remote access information.

All interested parties will be given a reasonable opportunity to present their views, either orally or in writing or both, concerning the proposed regulations. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and Economic Impact Statement in an accessible format. Requests for accommodations to participate in the hearing should be made at least five working days in advance of the hearing by contacting Taylor Murray at 785-296-6093 or taylor.murray@ks.gov. - (d) All wagers at blackjack shall be made by placing gaming chips on the appropriate areas of the blackjack layout.
- (e) After each round of play is complete, the dealer shall collect all losing wagers and pay off all winning wagers, except that if the cards in a player's hand exceed a total of 21 points, the wager for that hand shall be lost and the wager shall be collected by the dealer. All winning wagers made against the dealer in accordance with these rules shall be paid at odds of one to one with the exception of a blackjack which shall be paid at odds of three to two.
- (f) Once the first card of any hand has been dealt to a player, the player shall not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager except as permitted by these rules.
- (g) Once a wager on the insurance line, a wager to double down, or a wager to split pairs has been made and confirmed by the dealer, no player shall handle, remove or alter such wagers until a decision has been rendered and implemented with respect to that wager except as permitted by these regulations.
- (h) A double down wager shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A double down wager shall push or tie if the player's hand and the dealer's hand are equal. A double down wager shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards. A double down wager shall be paid at the rate of one to one on both the original wager and the double down portion of the wager. A player may double down after splitting pairs.
- (i) A split bet shall win if the total of the player's cards exceeds the total of the dealer's cards without exceeding a total of 21. A split bet shall lose if the total of the player's cards exceeds 21 or is less than the total of the dealer's cards. A split bet shall tie or push if the player's hand and the dealer's hand are equal. A split bet shall be paid at the rate of one to one on both the original wager and the split wager.
- (j) An optional Blazing 7's Progressive side wager may be offered at gaming tables.
- (1) Prior to receiving the first card for each round of play, each player who makes a wager against the dealer may also make the progressive wager by placing gaming chips on the designated area on the blackjack layout, which wager shall also cause a light to illuminate on the gaming table to verify the wager was made. If the light fails to illuminate, the progressive wager shall be returned to the player.
- (2) The dollar amount required for the Blazing 7's Progressive side wager shall be posted at the gaming table.
- (3) Prior to the first card being dealt for each round of play, the dealer shall remove all progressive wagers but the light verifying the wager shall remain illuminated until the progressive wager is resolved.
- (4) All Blazing 7's Progressive side wagers use only the player's first two cards and the dealer's card that is turned face up. The progressive wager shall win if either or both of the player's first two cards are 7's, or if both of the player's first two cards and the dealer's card turned face up are all 7's.
- (5) After two cards have been dealt to all players at the table and the dealer, all winning Blazing 7's Progressive wagers shall be paid as follows:

Three 7's of diamonds	100% of progressive pot
Three 7's all in the same suit other than diamonds	10% of progressive pot

Three 7's in mixed suits and colors	Odds of 200 for 1
Two 7's in the player's hand	Odds of 25 for 1

Odds of 2 for 1

Only the highest progressive prize for which a hand qualifies shall be paid. If during a round of play two or more hands qualify for any portion of the progressive pot, the applicable portion of the progressive pot shall be evenly divided between all qualifying hands and if necessary, rounded up by the lottery gaming facility manager so that all qualifying hands are paid equal amounts.

(6) The Blazing 7's Progressive prize pot shall be initially funded by the lottery gaming facility manager in the amount of \$10,000. Twenty-four percent of each progressive wager made thereafter shall be added to the progressive prize pot amount. The running total amount of the progressive prize pot shall be displayed on a meter at the gaming table and all progressive prizes shall be paid based upon the amount on the meter at the time the prize is won.

(7) After the top progressive prize is awarded, the lottery gaming facility manager shall again fund the progressive prize in the amount of \$10,000.

(k) If offered at a gaming table, a player may make an optional "21 + 3" or "TriLux" three-card wager prior to receiving the player's first card for the round of play. The minimum and maximum three-card wager will be posted at the table. An additional three-card wager may be made as a tip for the dealer. The following describes a list of the permissible wagers, payout odds, and what constitutes a win or loss for three-card wagers:

(1) A three-card wager will win only if the dealer's card turned face up and the player's original two cards combined equal a flush, straight, three-of-a-kind, or straight flush.

(2) Winning three-card wagers will be paid out as follows:

(A) When the player's original two cards and the dealer's card turned face up combined equal a flush, straight, three-of-a-kind, or a straight flush, the hand will be paid at the rate of 9 to 1.

(B) All three-card wagers will be taken or paid before the blackjack portion of the game continues.

(l) If an optional TriLux Super 3 side wager is offered at a gaming table, prior to receiving the first card for each round of play, any player making a three-card wager may also make a TriLux Super 3 wager, and if posted at the gaming table players not making a three-card wager may also make a TriLux Super 3 wager. The minimum and maximum TriLux Super 3 wager and whether the three-card wager is required in order to make the TriLux Super 3 wager will be posted at the table and/or on the gaming table layout. (m) If offered at a blackjack table at which at least six decks of cards are being used, a player making a blackjack wager may also make an optional royal match 21 wager in the area on the table designated for the optional wager so long as the wager is made prior to the player receiving the player's first card of the round. The amount required to make the optional royal match 21 wager shall be posted at the table.

(1) If a player makes an optional royal match 21 wager, the player may also make a royal match 21 wager as a tip for the dealer so long as the tip wager is made prior to the first card of the hand being removed from the shoe.

(2) Resolution of all royal match 21 wagers shall be made after all players and the dealer have received their second card and before the blackjack game continues.

(3) A royal match 21 wager shall win only if both of the player's two cards are in the same suit.

(4) Winning royal match 21 wagers shall be paid at odds of 2.5 to one, unless the two cards constitute a blackjack in which case the player's wager shall be paid at odds of 5 to one, or unless the two cards are a king and queen in which case the player's wager shall be paid at odds of 25 to one.

Article 401.—NORTHEAST GAMING ZONE

111-401-117. Wagers and payout odds. (a) Minimum and maximum wagers will be posted on a sign at each table.

(b) Maximum table payouts, if any, will be posted at each table and will not be less than the maximum wager times the maximum odds.

(c) If a player has been permitted to wager less than the table minimum, the dealer will take or pay the amount actually wagered. If a player has been permitted to wager more than the table maximum, the excess will be returned to the player and the dealer will pay the correct odds on the posted maximum amount. The player will be informed of the table minimum or maximum for subsequent wagers.

(d) A player may play two hands at double the table minimum per hand not to exceed the table maximum. A player may play three hands at five times the table minimum, per hand, not to exceed the table maximum. Exceptions to this rule are permitted if approved by the pit manager, casino shift manager, or higher ranking casino official.

(e) The following describes a list of permissible wagers, payout odds, and what constitutes a win, loss, or tie:

(1) Original wagers:

(A) An original wager will be made by the player prior to the first card of the hand being dealt.

(B) An additional original wager may be made as a tip for the dealer.

(C) An original wager will win if the total point value of the player's cards exceeds the total point value of the dealer's cards without exceeding a total point value of 21. In the event the player's first two cards have a total point value of 21, the player will have a blackjack.

(D) An original wager will lose if the total point value of the player's cards exceeds 21 or is lower than the total point value of the dealer's cards.

(E) An original wager will tie if the total point value of the player's cards is equivalent to the total point value of the dealer's cards. A blackjack beats a hand with a total point value of 21 that uses the point value of three or more cards.

(F) When a player's hand consists of a blackjack, the winning hand will be paid out at a rate of 3 to 2 or at the rate of 6 to 5 (as stated on the gaming table layout). All winning original wagers, except hands consisting of a blackjack, will be paid out at the rate of 1 to 1.

(2) Insurance wager:

(A) An insurance wager is a one-time wager in an amount up to one-half of the original wager that may be taken when the dealer has an ace for his up card (the first card dealt to the dealer, which card is dealt face up). An insurance wager will be made prior to the dealer looking at the hole card (the second card dealt to the dealer, which card is dealt face down).

(B) An additional insurance wager may be made as a tip for the dealer.

(C) An insurance wager will win at the rate of 2 to 1 if the dealer has a blackjack.

(D) An insurance wager will lose if the dealer does not have a blackjack.

(3) Double down wager:

(A) An additional wager made by the player up to the amount of the player's original wager on the condition only one additional card will be dealt to the player. This wager can be made on any hand consisting of two cards including after splitting, except that the wager may not be made after splitting aces.

(B) An additional double down wager may be made as a tip for the dealer only if the player has made an original wager for the dealer.

(C) A double down wager will win if the total point value of the player's cards exceeds the total point value of the dealer's cards without exceeding a total point value of 21.

(D) A double down wager will lose if the total point value of the player's cards exceeds 21 or is less than the total point value of the dealer's cards.

(E) A double down wager will tie if the player's hand and the dealer's hand are of equal total point value.

(F) A winning double down wager will be paid at the rate of 1 to 1.

(4) Split wager:

(A) An additional wager made when a player's initial two cards are of the same face value provided the player makes a wager equal to the original wager. A player may split up to three times for a total of four hands. A player may double down after splitting with the exception of after splitting aces. A player will only receive one additional card after splitting aces.

(B) A split wager will win if the total point value of the player's cards exceeds the total point value of the dealer's cards without exceeding a total point value of 21.

(C) A split wager will lose if the total point value of the player's cards exceeds 21 or is less than the total point value of the dealer's cards.

(D) A split wager will tie if the player's hand and the dealer's hand are of equal total point value.

(E) A winning split wager will be paid at the rate of 1 to 1.

(F) An additional split wager may be made as a tip for the dealer only if the player has made an original wager for the dealer.

(f) The following describes a list of the permissible wagers, payout odds, and what constitutes a win, loss, or tie for three-card wagers:

(1) An optional three-card wager may be made by the player prior to the first card of the hand being removed from the shoe in an area designated for the three-card wager. The player must make an original blackjack wager in order to place the three-card wager.

(2) An additional three-card wager may be made as a tip for the dealer.

(3) A three-card wager will win if the dealer's up card and the player's original two cards combined equal a flush, straight, three-of-a-kind, or straight flush.

(4) A three-card wager will lose if the dealer's up card and the player's original two cards combined do not equal a flush, straight, three-of-a-kind, or straight flush.

(5) Winning three-card wagers will be paid out as follows:

(A) When the player's original two cards and the dealer's up card combined equal a flush, straight, three-of-a-kind, or a straight flush, the hand will be paid at a rate of 9 to 1.

(B) All three-card wagers will be taken or paid before the blackjack portion of the game continues.

The player must make an original blackjack wager in order to place either or both of the 21 + 3 progressive wagers.

(2) A 21 + 3 progressive wager will win if the dealer's card dealt face up and the player's original two cards combined equal a straight, three-of-a-kind not all in the same suit, straight flush, three-of-a-kind all in the same suit or three aces all in the same suit.

(3) A 21 + 3 progressive wager will lose if the dealer's card dealt face up and the player's original two cards combined do not equal a straight, three-of-a-kind not all in the same suit, straight flush, three-of-a-kind all in the same suit or three aces all in the same suit.
