Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9:00 a.m. Thursday, May 30, 2019, in the offices of the Kansas Development Finance Authority (K DFA), 534 S. Kansas Ave., Suite 800, Topeka, Kansas, on the proposal for the K DFA to issue its Agricultural Development Revenue Bonds for the projects numbered below in the respective maximum principal amounts. The bonds will be issued to assist the borrowers named below (who will be the owners and operators of the projects) to finance the cost in the amount of the bonds, which are then typically purchased by a lender bank who then, through the K DFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The projects shall be located as shown:

Project No. 001030 Maximum Principal Amount: \$275,000. Owner/Operator: Kyle J. Becker; Description: Acquisition of 117 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Kyle J. Becker (the "Beginning Farmer") and is located at Section 36, Washington Township, Brown County, Kansas, approximately 4 miles east of Everest, Kansas on Hwy. K-20 and 1.5 miles south on Willow Road.

Project No. 001035 Maximum Principal Amount: \$126,000. Owner/Operator: Tyler and Felicia Johnson; Description: Acquisition of 33.29 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Tyler and Felicia Johnson (the "Beginning Farmer") and is located at Section 7, Township 20, Range 2 West, McPherson County, Kansas, approximately 2 miles west and 4 miles south of Galva, Kansas.

The bonds, when issued, will be a limited obligation of the K DFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the K DFA, nor will they be

an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bonds will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bonds when they become due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bonds to finance the projects, and all written comments previously filed with the K DFA at its offices at 534 S. Kansas Ave., Suite 800, Topeka, KS 66603, will be considered. Additional information regarding the projects may be obtained by contacting the K DFA.

Consultants currently under an on-call agreement with KDOT are eligible to respond to this advertisement.

(continued)

Requirements

Interested consulting firms must: (a) be prequalified by KDOT in category 231–Traffic Control Analysis and Design and (b) submit a Letter of Interest on or before close of business May 28, 2019, to David Lutgen, Contracts Engineer for KDOT, by email to kdot.designcontracts@ks.gov with subject line reading “Traffic Engineering On-Call – [Firm Name].” Letters of interest in the form of a PDF document (maximum size 4 pages) should express interest in the project and describe qualifications for the professional services sought by KDOT, including any special expertise, skill, and experience or knowledge of the firm. Include previous project experience in the area of traffic control analysis and design. Shortlisted firms will also be interviewed in person, tentatively scheduled for June 19, 2019. KDOT will select up to five firms to enter negotiations with to provide Traffic Engineering Design services. Please do not call or write KDOT staff for information regarding the services in this RFQ. Email all inquiries/questions to kdot.designcontracts@ks.gov.

Legal Description: SE¼, S29, T19S, R3W, McPherson County, Kansas
Facility Name: Water Treatment Air Stripping Unit
Facility Location: 414 W. Elizabeth, McPherson, KS 67460

The proposed action is to reissue an existing State/NPDES permit for an existing facility. This is an air stripper facility designed to remove volatile organic chemicals (VOC's) from groundwater prior to placement in the City of McPherson potable water system. The treatment facility is comprised of two air-stripper towers, which treat groundwater from Wells #2, #3 and #5. The effluent is then pumped to the Blending Plant facility, where it is mixed with the effluent from the City's other municipal wells. The effluent is disinfected with chlorine gas being discharged into the Blending Plant clear well and prior to entry into the City's public water supply. Water is no longer chlorinated at the air stripper facility, therefore, there would no longer be a discharge of treated effluent to the storm sewer. The proposed permit contains limits for total residual chlorine, trichloroethylene, tetrachloroethylene, and pH, as well as monitoring for flow.

erates from May through October of each year. When a discharge occurs, it consists of wash water that has been settled and pH neutralized. The proposed permit contains limits for pH and total suspended solids, as well as monitoring for flow, chlorides, and selenium.
