**Board of Agriculture  
Division of Water Resources**

**Notice of Hearing  
on Proposed  
Administrative Regulations**

A public hearing will be conducted at 8 p.m. Tuesday, August 14, at the office of Equus Beds Groundwater Management District No. 1, 313 Spruce, Halstead, to consider the adoption of proposed changes in existing rules and regulations of the Division of Water Resources and the addition of two new permanent rules and regulations.

The 30-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the chief engineer, Division of Water Resources, Kansas State Board of Agriculture, 109 S.W. 9th, Suite 202, Topeka 66612-1283. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request each participant to limit any oral presentation to five minutes.

These regulations are proposed for adoption on a permanent basis. A summary of proposed regulations and their economic impact is as follows:

**K.A.R. 5-22-1** has been amended to add 10 definitions and amend one definition. These changes will not directly result in any fiscal impact to water users or governmental agencies.

**K.A.R. 5-22-2** has been amended to clarify the well spacing policy of the district, add requirements for spacing of domestic wells and set standards for exempting standby wells from the spacing criteria. No significant fiscal impact to water users or governmental entities is expected.

**K.A.R. 5-22-4** has been amended to allow the district the authority to "inspect" as well as read water meters. No significant fiscal impact to water users or governmental entities is expected.

**K.A.R. 5-22-5** has been amended to allow the board to require water use reports at times other than the end of March. This would allow the board to require more frequent water use reports in order to better monitor potential problems.

**K.A.R. 5-22-7** has been amended to add a safe yield formula that would apply to new applications for regular and term permits and all change applications where the original diversion works were not completed within the terms of the permit. Applications for additional rate of diversion only are exempted under some circumstances. Because this is not a major departure from the current regulation, there is no significant fiscal impact to water users or governmental agencies other than those few additional applicants who will not be able to get permits approved.

**K.A.R. 5-22-8** is a new regulation setting forth requirements for applications for change in point of diversion limiting the maximum distance a replacement well can

be located from the originally approved location as 2,640 feet. The regulation basically reflects current Division of Water Resources policy and will result in no significant fiscal impact to water users or governmental entities.

**K.A.R. 5-22-9** is a new regulation allowing the chief engineer to make exceptions to these regulations in certain circumstances and requiring him to take into consideration the recommendation of the board concerning those exceptions. This also is an expression of existing policy and will not result in a fiscal impact to water users or governmental entities.

Copies of the regulations and their economic impact statements may be obtained from the Division of Water Resources at the address above, (913) 296-4623.

## State Corporation Commission

**Notice of Hearing  
on Proposed  
Administrative Regulations**

A public hearing will be conducted at 10 a.m. Thursday, August 16, in the first floor hearing room of the State Corporation Commission, 1500 S.W. Arrowhead Road, Topeka 66604-4027, to consider proposed changes in existing administrative rules and regulations of the State Corporation Commission.

The period of 30 days notice from the date of this publication to the date of the public hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the executive director of the commission at the address above.

Copies of the proposed regulations and the economic impact statements may be obtained at the address above. Persons requesting a copy of the proposed regulations and economic impact statements, in accordance with K.S.A. 45-219, will be required to compensate the State Corporation Commission for the cost of reproduction.

All interested parties will be given a reasonable opportunity at the hearing to express their views orally in regard to adoption of the proposed amendments. Following the hearing, all written and oral comments submitted by interested parties will be considered by the commission as a basis for making amendments to the proposed changes.

The majority of the changes are proposed in order to bring these rules into compliance with federal law pursuant to 49 U.S.C. § 11501(b)(5)(A) as mandated in *State Intrastate Rail Rate Authority*, 5 I.C.C.2d 680, 685 (1989). The changes mandated by federal law are required for the state of Kansas, through the State Corporation Commission, to retain regulatory authority over intrastate rail rates charged by rail carriers operating within Kansas. Some additional changes are grammatical in nature and intended to make the rules more easily understood, while others are for the purpose of better organization of the rules.

The following is a brief summary of the proposed changes to the regulations. Adoption of the proposed amendments is anticipated to pose no economic impact to governmental units, persons subject to these rules and regulations, or to the general public, unless otherwise indicated.

**K.A.R. 82-9-1. Railroad tariff filing requirements.** The amendments to this rule in subsection (a) add subsections (a)(6) and (a)(7), pursuant to federal law, which would allow for the filing of new and reduced rail rates on one day's notice or shorter notice upon the showing of good cause. In subsection (c)(2)(C), the change corrects the classification of a rail service. An amendment creating subsection (c)(3) is made regarding the commission's mandate to eliminate discrimination in the rail transportation of recyclables, pursuant to federal law. The rule is further amended, pursuant to federal law, to add subsections (d) and (e). Subsection (d) would authorize railroads to pub-

lish rates under which the liability of the carrier is limited. Subsection (e) is added to make clear that all actions regarding the operation of railroads within the state of Kansas will be consistent with federal law.

**K.A.R. 82-9-3. Grounds for suspension.** This section is amended, pursuant to federal law, to add subsection (a)(4) limiting the ability of a state agency to suspend a proposed rail rate classification, rule or practice upon its own motion.

**K.A.R. 82-9-5. Market dominance.** Changes to subsections (a), (b) and (c) of this section are purely grammatical in nature. An amendment proposing subsection (f), which sets out the evidentiary guidelines to be used in determining market dominance, is required to comply with federal law.

**K.A.R. 82-9-6. Reasonableness.** The proposed amendment to subsection (a) places a limitation on the authority to directly or indirectly limit rates that rail carriers are otherwise authorized to establish. The change in subsection (b) reflects a newly determined revenue to variable cost ratio ceiling for rates on recyclables. The change in subsection (c) is proposed to acknowledge that a prior interstate commerce commission ruling on revenue adequacy for a particular carrier is binding on a certified state agency and an independent determination may not be made. The aforementioned amendments are proposed pursuant to federal law. Changes proposed for subsection (d)(1), (2) and (3) are grammatical in nature. The proposed addition of subsection (f), which would allow a rail carrier to petition the interstate commerce commission for review of a decision regarding interstate rates, is made pursuant to federal law.

**K.A.R. 82-9-8. Zone of rate flexibility.** Changes proposed to subsections (a)(2) and (b) are grammatical in nature. An amendment adding subsection (b)(6) is made, pursuant to federal law, to reflect that increased rates resulting from the application of the rail cost adjustment factor (RCAF) are conclusively presumed lawful so long as they do not exceed the adjusted base rate.

**K.A.R. 82-9-14. Maximum rates.** The title was amended to more accurately reflect the rules and regulations contained in this section.

**K.A.R. 82-9-16. Contracts.** Changes proposed in subsections (e) and (f) of this section are grammatical in nature. The proposed addition of subsection (i) is made to acknowledge the adoption of federal rules governing railroad contracts pursuant to federal law.

**K.A.R. 82-9-24. Joint rate surcharges and cancellations.** This section is given a title to reflect the rules and regulations contained therein. The information previously contained in the section is now proposed, by amendment, to be located under subsection (a). An amendment is proposed to add subsection (b), setting forth the rule under which rail variable cost and revenue determinations for joint rates subject to surcharge or cancellation would be made. Also proposed is the addition of subsection (c) providing the method under which the cancellation of joint rates and complaints seeking prescription of joint rates and reciprocal switching arrangements shall be made. The addition of subsections (b) and (c) is proposed pursuant to federal law.

**Place of Payment and Bond Registration**

The principal of and interest on the bonds will be payable in lawful money of the United States of America by check or draft of the Kansas State Treasurer, Topeka, Kansas. Interest on the bonds will be paid by check or draft mailed by the paying agent to the persons in whose names the bonds are registered on the registration books maintained by the bond registrar at the close of business on the record date for such interest, which shall be the fifteenth day (whether or not a business day) of the calendar month next preceding such interest payment date.

The city will pay for the fees of the bond registrar for registration and transfer of the bonds and will also pay for printing a reasonable supply of registered bond blanks. Any additional costs or fees that might be incurred in the secondary market, other than fees of the bond registrar, will be the responsibility of the bondholders.

**Redemption of Bonds Prior to Maturity**

At the option of the city, bonds maturing on October 1, 2001, and thereafter will be subject to redemption and payment prior to maturity on October 1, 2000, and thereafter in whole or in part on any interest payment date (bonds of less than a single maturity to be selected by lot in multiples of \$5,000 principal amount by the paying agent and bond registrar in such equitable manner as it shall designate), at the principal amount thereof, plus accrued interest to the redemption date, without premium.

(continued)

Whenever the city is to select the bonds for the purpose of redemption, it shall, in the case of bonds in denominations greater than \$5,000 if less than all of the bonds then outstanding are to be called for redemption, treat each \$5,000 of face value of each such fully registered bond as though it were a separate bond of the denomination of \$5,000.

If the city shall elect to call any bond for redemption and payment prior to the maturity thereof, the city shall give written notice of its intention to redeem and pay said bonds on a specified date, the same being described by number and maturity, said notice to be mailed by United States registered or certified mail to the paying agent and bond registrar, and to the manager or managers of the underwriting account making the successful bid, each of said notices to be mailed at least 30 days prior to the redemption date. Thereafter, the paying agent will notify the owners of the bonds of such redemption call by first class mail, postage prepaid. If any bond be called for redemption and payment as aforesaid, all interest on such bond shall cease from and after the date for which such call is made, provided funds are available for its payment at the price hereinbefore specified.

#### Conditions of Bids

Proposals will be received on the bonds bearing such rate or rates of interest as may be specified by the bidders, subject to the following conditions: The same rate shall apply to all bonds of the same maturity. Each interest rate specified shall be a multiple of  $\frac{1}{8}$  or  $\frac{1}{20}$  of 1 percent. No interest rate shall exceed the index of treasury bonds published by the weekly *MuniWeek*, f/k/a *Credit Markets*, in New York, New York, on the Monday next preceding the day on which the bonds are sold, plus 2 percent. The difference between the highest rate specified and the lowest rate specified shall not exceed 2 percent. No supplemental interest payments will be authorized. No bid of less than the principal amount of the bonds and accrued interest will be considered. Each bid shall specify the total interest cost to the city during the life of the bond issue on the basis of such bid, the premium, if any, offered by the bidder, and the net interest cost to the city on the basis of such bid. Each bid shall also specify the average annual net interest rate to the city on the basis of such bid. Bidders shall specify in the bid form the prices (exclusive of accrued interest), expressed as a dollar price, at which the bidder intends that each maturity amount of the bonds shall be initially offered to the public (the initial reoffering prices).

#### Basis of Award

The award of the bonds will be made on the basis of the lowest net interest cost to the city, which will be determined by subtracting the amount of the premium bid, if any, from the total interest cost to the city. If there is any discrepancy between the net interest cost and the average annual net interest rate specified, the specified net interest cost shall govern and the interest rates specified in the bid shall be adjusted accordingly. If two or more proper bids providing for identical amounts for the lowest net interest cost are received, the city shall determine which bid, if any, shall be accepted, and its determination shall be final.

#### Authorization, Purpose and Security for the Bonds

The bonds are being authorized and issued to permanently finance various sewer improvements to the city. The bonds will be general obligations of the city payable as to both principal and interest in part from special assessments levied upon specially benefited property and, if not so paid, from ad valorem taxes which may be levied without limitation upon all the taxable tangible property, real and personal, within the territorial limits of the city. The balance of the principal of and interest on the bonds is payable from ad valorem taxes which may be levied, without limitation as to rate or amount on all the taxable tangible property, real and personal, within the territorial limits of the city.

#### Internal Revenue Code of 1986

The Internal Revenue Code of 1986 imposes requirements on the city that must be met subsequent to the issuance of the bonds by the city and, as a result, the city will and does hereby covenant that it will diligently undertake those steps necessary to maintain the tax-exempt status of the bonds. The city's failure to comply with such requirements could adversely affect the tax-exempt status of the bonds. Purchasers of the bonds should be aware that should the bonds lose their status as tax-exempt obligations as a result of the city's failure to comply with such requirements, the bonds are neither callable nor will the rate of interest on the bonds be adjusted to reflect such circumstances.

The code includes interest on tax-exempt obligations, such as the bonds, in the adjusted net book income of certain corporations for taxable years beginning after December 31, 1986, and includes, through 1989, in the calculation of alternative minimum taxable income one-half of the excess of a corporation's adjusted net book income over its alternative minimum taxable income (determined without regard to this adjustment and prior to reduction for certain net operating losses). After 1989, the use of "book income" will be replaced by "adjusted current earnings," with certain other adjustments. Furthermore, Section 59A of the code, as added by the Superfund Amendments and Reauthorization act of 1986, provides for a new environmental tax generally based on corporate alternative minimum taxable income. The amount of the tax is equal to 0.12 percent of the excess of alternative minimum taxable income, without regard to net operating losses and the deduction for this tax, over \$2 million. The environmental tax is imposed whether or not the taxpayer is subject to the alternative minimum tax. The environmental tax, which is effective for taxable years beginning after December 31, 1986, may subject certain bondowners to additional taxation for interest earned on the bonds.

The code also requires property and casualty insurance companies, for taxable years beginning on or after January 1, 1987, to reduce the amount of their deductible underwriting losses by a percentage of the amount of tax-exempt interest received or accrued on obligations acquired after August 7, 1986.

With the exception of certain "qualified tax-exempt obligations," the code provides that banks and thrift institutions may not deduct any portion of the interest cost of purchasing or carrying tax-exempt obligations such as the bonds if such interest cost is incurred in taxable years

ending after December 31, 1986, with respect to obligations acquired after August 7, 1986. The city does intend to designate the bonds as "qualified tax-exempt obligations" under Section 265 of the code.

#### Legal Opinion

The bonds will be sold subject to the legal opinion of Nichols and Wolfe Chartered, Topeka, Kansas, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the city, printed on the bonds and delivered to the successful bidder when the bonds are delivered. Said opinion will also state that in the opinion of bond counsel, assuming continued compliance by the city with the provisions of the ordinance authorizing the issuance of the bonds and the code, under existing law, the interest on the bonds is exempt from federal income taxation. Interest on the bonds will also be excluded from the computation of Kansas adjusted gross income for taxable years commencing after December 31, 1987.

#### Delivery and Payment

The city will pay for printing the bonds and will deliver the bonds, without cost to the successful bidder, properly prepared, executed and registered, on or about July 25, 1990, at such bank or trust company in the state of Kansas or the Kansas City, Missouri, metropolitan area as may be specified by the successful bidder. Delivery elsewhere will be at the expense of the successful bidder. Said bidder will also be furnished with a certified transcript of the proceedings evidencing the authorization and issuance of the bonds and the usual closing documents, including a certificate that there is no litigation pending or threatened at the time of delivery of the bonds affecting their validity. Payment for the bonds shall be made in Federal Reserve funds, immediately subject to use by the city. The denominations of the bonds and the names, addresses and Social Security or taxpayer identification numbers of the registered owners shall be submitted in writing by the successful bidder to the city and bond registrar not later than 4 p.m. C.D.T. on July 19, 1990. In the absence of such information, the city will deliver bonds in the denomination of each maturity registered in the name of the successful bidder.

The successful bidder shall furnish the city by 4 p.m. C.D.T. on July 19, 1990, a certificate acceptable to the city's bond counsel to the effect that: (i) the successful bidder has made a bona fide public offering of the bonds at the initial reoffering prices; and (ii) a substantial amount of the bonds was sold to the public (excluding brokers and other intermediaries) at such initial reoffering prices. Such certificate shall state that: (1) it is made on the best knowledge, information and belief of the successful bidder; and (2) 10 percent or more in par amount of the bonds of each maturity was sold to the public at or below the initial reoffering prices (such amount being sufficient to establish the sale of a "substantial amount" of the bonds).

#### Good Faith Deposit

Each bid shall be accompanied by a cashier's or certified check drawn on a bank located in the United States of America in the amount of \$2,640, payable to the order of the city to secure the city from any loss resulting from the failure of the bidder to comply with the terms of the

bid. No interest will be paid upon the deposit made by the successful bidder. Said check shall be returned to the bidder if the bid is not accepted. If a bid is accepted, said check shall be held by the city until the bidder shall have complied with all of the terms and conditions of this notice, at which time said check shall be returned to the successful bidder or deducted from the purchase price at the option of the city. If a bid is accepted but the city shall fail to deliver the bonds to the bidder in accordance with the terms and conditions of this notice, said check shall be returned to the bidder. If a bid is accepted but the bidder shall default in the performance of any of the terms and conditions of this notice, the proceeds of such check shall be forfeited to the city with the city reserving the right to pursue any other remedies available as a result of such default.

#### CUSIP Numbers

CUSIP identification numbers will be printed on the bonds, but neither the failure to print such number on any bond nor any error with respect thereto shall constitute cause for failure or refusal by the purchaser thereof to accept delivery of and pay for the bonds in accordance with the terms of this notice. All expenses in relation to the assignment and printing of CUSIP numbers on the bonds will be paid by the city.

#### Bid Forms

All bids must be made on forms that may be procured from the city clerk. No additions or alterations in such forms shall be made and any erasures may cause rejection of any bid. The city reserves the right to waive irregularities and to reject any or all bids.

#### Submission of Bids

Bids must be submitted in sealed envelopes addressed to the undersigned city clerk and marked "Proposal for the Purchase of General Obligation Bonds." Bids may be submitted by mail or delivered in person to the undersigned at city hall and must be received by the undersigned prior to 5 p.m. C.D.T. on Wednesday, July 11, 1990.

#### Assessed Valuation and Indebtedness

The total assessed valuation of the taxable tangible property, including motor vehicles, within the city for the year 1989 is \$3,168,023. The total general obligation bonded indebtedness of the city as of the date of the bonds, including the bonds, is \$172,000, including, as of the date of the bonds, temporary notes outstanding in the principal amount of \$132,000, of which, \$132,000 will be retired out of the proceeds of the bonds herein offered for sale.

Rogers, Executive Director, Salina Municipal Airport/Industrial Center, 3237 Arnold Ave., Salina, KS 67402, and will be plainly marked "Bond Bid." Each bid will specify the total interest cost to the authority on the basis of such bid and the average annual net interest rate on the basis of such bid. The net interest cost to the authority will be determined by subtracting the amount of the premium, if any, from the total interest cost and will be stated as a dollar amount in the bid. The authority will be entitled to rely on such dollar amount as stated in the bid as the basis of determining the lowest net interest cost bid. If there is any discrepancy between the said net interest cost and the average annual interest rate specified, the specified net interest cost will govern and the rates specified in the bid will be adjusted accordingly.

Each bid must be accompanied by a certified or cashier's check equal to \$38,000, made payable to treasurer

of the authority. In the event a bidder whose bid is accepted fails to carry out the contract to purchase the bonds, said deposit will be retained by the authority as liquidated damages. The checks of unsuccessful bidders will be returned promptly.

The cost of the opinion of bond counsel and the expense of printing the bonds will be paid by the authority.

The number and denominations of bonds and names of the registered owners to be shown on the bonds initially delivered must be submitted in writing by the successful bidder to the bond registrar not later than July 24, 1990.

The purchaser will be furnished with a complete transcript of proceedings evidencing the authorization and issuance of the bonds and the usual closing proofs, which will include a certificate that there is no litigation pending or threatened at the time of delivery of the bonds affecting their validity. Delivery of the bonds will be made to the successful bidder on or about July 31, 1990, at such location as may be specified by the purchaser. The purchase price, including accrued interest from the date of the bonds to the date of delivery, will be paid at delivery or the good faith deposit will be forfeited.

#### Tax Exemption

In the opinion of bond counsel, under existing statutes, regulations, rulings and court decisions, including the Internal Revenue Code of 1986, interest on the bonds is not includable in gross income for purposes of federal income taxation except that: (i) if the \$10,000,000 capital expenditure limitation imposed by Section 144(a)(4) is exceeded interest on the bonds will be includable in gross income from and after the date such limitation is exceeded; (ii) interest on any bond for any period during which it is held by a person who is a "substantial user" of the improvements financed with the bonds or a "related person" as those terms are used in Section 147 of the code is includable in gross income of the recipients thereof; and (iii) interest on the bonds is an item of tax preference for both the corporate and non-corporate alternative minimum tax and therefor includable in whole in determining alternative minimum taxable income. The code imposes an alternative minimum tax rate of 20 percent for corporations and 21 percent for individuals and other non-corporate taxpayers. In addition, interest on the bonds may be subject to the branch profits tax under the code. The authority has not designated the bonds as "qual-

ified tax-exempt obligations" under Section 265 of the code relating to interest deductions for banks and thrift institutions. Reference is made to the preliminary official statement for further discussion of federal income taxation matters relating to the interest on the bonds.

#### CUSIP Identification Numbers

CUSIP identification numbers will be printed on the bonds. All expenses in relation to printing of CUSIP numbers on the bonds and the expenses charged by the CUSIP Service Bureau for the assignment of said numbers shall be the responsibility of and shall be paid for by the authority.

#### Bond Rating

The authority has applied to Moody's Investors Service, Inc. for a rating on the bonds. The authority has not previously obtained a rating on general obligation debt from Moody's Investors Service, Inc.

The outstanding general obligation bonds of the city are rated "A1" by Moody's Investors Service, Inc.

The authority is authorized to issue general obligation bonds not to exceed 3 percent of the assessed valuation of all of the taxable tangible property within the territorial limits of the city.

#### Assessed Valuation and Bonded Indebtedness

The total assessed valuation of the taxable tangible property within the city for 1989 is \$189,199,783. The total general obligation bonded indebtedness of the authority as of July 1, 1990, including this \$1,900,000 proposed issue of bonds, will be \$1,900,000.

The authority anticipates that it will issue an additional \$750,000 principal amount of general obligation bonds during the year 1990.

#### Preliminary Official Statement and Official Statement

The authority has prepared a preliminary official statement dated June 26, 1990, copies of which may be obtained from the undersigned or the authority's financial advisor. The principal of and interest on the bonds will be payable in lawful money of the United States of America by check or draft of the Kansas State Treasurer, Topeka, Kansas, the paying agent and bond registrar. The principal of the bonds will be payable at maturity to the registered owners upon presentation and surrender of the bonds at the office of the paying agent. Interest on the bonds will be paid by check or draft mailed by the paying agent to the persons in whose names the bonds are registered on the registration books maintained by the bond registrar at the close of business on the record date for such interest, which shall be the fifteenth day (whether or not a business day) of the calendar month preceding such interest payment date.

The city will pay for the fees of the bond registrar for registration and transfer of the bonds and will also pay for printing a reasonable supply of registered bond blanks. Any additional costs or fees that might be incurred in the

secondary market, other than fees of the bond registrar, will be the responsibility of the bondholders.

**Conditions of Bids**

Proposals will be received on the bonds bearing such rate or rates of interest as may be specified by the bidders, subject to the following conditions: the same rate shall apply to all bonds of the same maturity. Each interest rate specified shall be a multiple of  $\frac{1}{8}$ th or  $\frac{1}{20}$ th of 1 percent. No interest rate shall exceed the index of treasury bonds published by the weekly *Muni Week*, f/k/a *Credit Markets*, in New York, New York, on the Monday next preceding the day on which the bonds are sold, plus 2 percent. The difference between the highest rate specified and the lowest rate specified shall not exceed 2 percent. No supplemental interest payments will be authorized. No bid of less than the principal amount of the bonds and accrued interest will be considered. Each bid shall specify the total interest cost to the city during the life of the bond issue on the basis of such bid, the premium, if any, offered by the bidder, and the net interest cost to the city on the basis of such bid. Each bid shall also specify the average annual net interest rate to the city on the basis of such bid. Bidders shall specify in the bid form the prices (exclusive of accrued interest), expressed as a dollar price, at which the bidder intends that each maturity amount of the bonds shall be initially offered to the public (the initial reoffering prices).

**Basis of Award**

The award of the bonds will be made on the basis of the lowest net interest cost of the city, which will be determined by subtracting the amount of the premium bid, if any, from the total interest cost to the city. If there is any discrepancy between the net interest cost and the average annual net interest rate specified, the specified net interest cost shall govern and the interest rates specified in the bid shall be adjusted accordingly. If two or more proper bids providing for identical amounts for the lowest net interest cost are received, the city shall determine which bid, if any, shall be accepted, and its determination shall be final.

**Authorization, Purpose and Security for the Bonds**

The bonds are being authorized and issued to permanently finance various street and sewer improvements to the city. The bonds will be general obligations of the city payable as to both principal and interest from special assessments levied upon specially benefited property and, if not so paid, from ad valorem taxes which may be levied, without limitation on all the taxable tangible property, real and personal, within the territorial limits of the city.

**Internal Revenue Code of 1986**

The Internal Revenue Code of 1986 imposes requirements on the city that must be met subsequent to the issuance of the bonds by the city and, as a result, the city will and does hereby covenant that it will diligently undertake those steps necessary to maintain the tax-exempt status of the bonds. The city's failure to comply with such requirements could adversely affect the tax-exempt status of the bonds. Purchasers of the bonds should be aware that should the bonds lose their status as tax-exempt obligations as a result of the city's failure

to comply with such requirements, the bonds are neither callable nor will the rate of interest on the bonds be adjusted to reflect such circumstances.

The code includes interest on tax-exempt obligations, such as the bonds, in the adjusted net book income of certain corporations for taxable years beginning after December 31, 1986, and includes, through 1989, in the calculation of alternative minimum taxable income one-half of the excess of a corporation's adjusted net book income over its alternative minimum taxable income (determined without regard to this adjustment and prior to reduction for certain net operating losses). After 1989, the use of "book income" will be replaced by "adjusted current earnings," with certain other adjustments. Furthermore, Section 59A of the code, as added by the Superfund Amendments and Reauthorization Act of 1986, provides for a new environmental tax generally based on corporate alternative minimum taxable income. The amount of the tax is equal to 0.12 percent of the excess of alternative minimum taxable income, without regard to net operating losses and the deduction for this tax, over \$2 million. The environmental tax is imposed whether or not the taxpayer is subject to the alternative minimum tax. The environmental tax, which is effective for taxable years beginning after December 31, 1986, may subject certain bondowners to additional taxation for interest earned on the bonds.

The code also requires property and casualty insurance companies, for taxable years beginning on or after January 1, 1987, to reduce the amount of their deductible underwriting losses by a percentage of the amount of tax-exempt interest received or accrued on obligations acquired after August 7, 1986.

With the exception of certain "qualified tax-exempt obligations," the code provides that banks and thrift institutions may not deduct any portion of the interest cost of purchasing or carrying tax-exempt obligations such as the bonds if such interest cost is incurred in taxable years ending after December 31, 1986, with respect to obligations acquired after August 7, 1986. The city does intend to designate the bonds as "qualified tax-exempt obligations" under Section 265 of the code.

#### Legal Opinion

The bonds will be sold subject to the legal opinion of Nichols and Wolfe Chartered, Topeka, Kansas, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the city, printed on the bonds and delivered to the successful bidder when the bonds are delivered. Said opinion will also state that in the opinion of bond counsel, assuming continued compliance by the city with the provisions of the ordinance authorizing the issuance of the bonds and the code, under existing law, the interest on the bonds is exempt from federal income taxation. Interest on the bonds will also be excludable from the computation of Kansas adjusted gross income for taxable years commencing after December 31, 1987.

#### Delivery and Payment

The city will pay for printing the bonds and will deliver the bonds, without cost to the successful bidder, properly prepared, executed and registered, on or about August 15, 1990, at such bank or trust company in the state of

Kansas or greater Kansas City, Missouri, metropolitan area as may be specified by the successful bidder. Delivery elsewhere will be at the expense of the successful bidder. Said bidder will also be furnished with a certified transcript of the proceedings evidencing the authorization and issuance of the bonds and the usual closing documents, including a certificate that there is no litigation pending or threatened at the time of delivery of the bonds affecting their validity. Payment for the bonds shall be made in Federal Reserve funds, immediately subject to use by the city. The denominations of the bonds and the names, addresses and Social Security or taxpayer identification numbers of the registered owners shall be submitted in writing by the successful bidder to the city and bond registrar not later than 4 p.m. C.D.T. on July 27, 1990. In the absence of such information, the city will deliver bonds in the denomination of each maturity registered in the name of the successful bidder.

The successful bidder shall furnish the city by 4 p.m. C.D.T. on July 27, 1990, a certificate acceptable to the city's bond counsel to the effect that: (i) the successful bidder has made a bona fide public offering of the bonds at the initial reoffering prices; and (ii) a substantial amount of the bonds was sold to the public (excluding brokers and other intermediaries) at such initial reoffering prices. Such certificate shall state that: (1) it is made on the best knowledge, information and belief of the successful bidder; and (2) 10 percent or more in par amount of the bonds of each maturity was sold to the public at or below the initial reoffering prices (such amount being sufficient to establish the sale of a "substantial amount" of the bonds).

#### Good Faith Deposit

Each bid shall be accompanied by a cashier's or certified check drawn on a bank located in the United States of America in the amount of \$2,203.38 payable to the order of the city to secure the city from any loss resulting from the failure of the bidder to comply with the terms of the bid. No interest will be paid upon the deposit made by the successful bidder. Said check shall be returned to the bidder if the bid is not accepted. If a bid is accepted, said check shall be held by the city until the bidder shall have complied with all of the terms and conditions of this notice, at which time said check shall be returned to the successful bidder or deducted from the purchase price at the option of the city. If a bid is accepted but the city shall fail to deliver the bonds to the bidder in accordance with the terms and conditions of this notice, said check shall be returned to the bidder. If a bid is accepted but the bidder shall default in the performance of any of the terms and conditions of this notice, the proceeds of such check shall be forfeited to the city with the city reserving its right to pursue all remedies available to it as a result of such default.

#### Bid Forms

All bids must be made on forms that may be procured from the city clerk. No additions or alterations in such forms shall be made and any erasures may cause rejection of any bid. The city reserves the right to waive irregularities and to reject any or all bids.
