The firm will provide an initial report outlining proposed systems, system and building recommendations, and estimated cost of the project.

For information regarding the scope of services, contact Steven Hunt, Project Manager, Adjutant General’s Department, (785) 274-1131.

If interested, an original and six copies (seven total) of the SF 255 form (plus relevant attachments of information regarding similar projects) should be submitted. These submittals should be concise, relevant to the project and follow the State Building Advisory Commission guidelines for submittal. Copies of the guidelines have previously been distributed to firms; if copies of the guidelines are required, contact Gary Grimes, Division of Architectural Services, 1020 S. Kansas Ave., Topeka, 66612-1311, (785) 296-8899. Submittals not complying with the guidelines will be returned without consideration.

State Corporation Commission

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 10 a.m. Thursday, November 1, at the State Corporation Commission office, 130 S. Market, Room 2078, Wichita, 67202, to consider the adoption of proposed permanent regulations for the conservation of crude oil and natural gas.

The 60-day notice period from the date of this publication to the date of the public hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. Comments may be submitted to Diana Edmiston, Senior Assistant General Counsel, State Corporation Commission, Room 2078, Finney State Office Building, 130 S. Market, Wichita, 67202.

Any person requiring special accommodations under the Americans with Disabilities Act needs to give notice to the commission at least 10 days prior to the scheduled hearing date. The Kansas Relay Center can be accessed for assistance in communicating over the telephone with individuals with a hearing or speech impairment or both at 1-800-766-8777.

Copies of the proposed regulations and the economic impact statements may be obtained at the address above. Persons requesting a copy of the proposed regulations and economic impact statements, in accordance with K.S.A. 45-129, will be required to compensate the commission for the cost of reproduction. All interested parties will be given a reasonable opportunity at the hearing to present their views orally or in writing in regard to the adoption of the proposed regulations.

All written or oral comments submitted by interested parties on or before November 1 will be considered by the commission as a basis for making changes to these proposed permanent regulations.

The following is a brief summary of the proposed regulations and economic impact statements:

K.A.R. 82-3-111. This amendment includes minor wording and sentence structure changes for clarification. It also adds subsection (e) outlining the criteria for wells that would be considered exempt from this regulation due to their low risk of causing environmental harm.

Economic Impact Statement: The agency and industry will realize a reduction in paperwork and associated costs with regard to exempt wells. Other than the reduction in paperwork, the amendment will have no direct economic impact on the agency, other governmental agencies or private citizens.

K.A.R. 82-3-120. This amendment includes wording and sentence structure changes for clarification. This amendment also adds subsections outlining the requirements for financial responsibility and describing when a license application would be denied.

Economic Impact Statement: This amendment will have no economic impact on the agency, other governmental agencies or private citizens. However, the clarification of the financial responsibility requirement will increase the likelihood that the proper amounts are collected for the well plugging assurance fund.

K.A.R. 82-3-120a. This regulation has been repealed and its contents incorporated into K.A.R. 82-3-120.

Economic Impact Statement: No economic impact on the agency, other governmental agencies or private citizens.

K.A.R. 82-3-123. The amendment conforms the gas allowable to be assigned to a well with commingled production to the regular gas allowable provided for in K.A.R. 82-3-312.

Economic Impact Statement: There is no economic impact on the agency. Industry will potentially benefit from being allowed to produce commingled gas wells at the higher gas allowances provided for in K.A.R. 82-3-312.

K.A.R. 82-3-304. The amendments to this regulation exempt gas wells producing 250 mcf per day or less from initial and annual testing. In lieu of the initial and annual test, the operator must perform a shut-in pressure test.

Economic Impact Statement: Both industry and the agency should benefit from this amendment—the agency, by having to process and track less gas well tests, and industry, by not having to shut-in and test minimum wells. Testing a gas well costs approximately $350 to $500. The agency expects the regulation amendment to make approximately 250 additional wells exempt from testing. Based on those figures, industry will save approximately $87,500 to $125,000 per year in the aggregate. In addition, wells will not have to be shut-in, and production lost, for testing.

K.A.R. 82-3-312. The amendment increases the minimum allowable for gas wells from 150 mcf per day to 250 mcf per day.

Economic Impact Statement: There is no economic impact on the agency. Industry will potentially benefit by being able to produce more gas from minimum wells. Under certain market conditions, this will make these wells potentially more profitable in the short term.

In addition, an informational meeting and public hearing will be held in conjunction with the public comment period on September 19 in Room 106 (commissioner’s meeting room) of the Barton County Courthouse, 1400 Main, Great Bend. The informational meeting will begin at 6 p.m. At the informational meeting, KDHE staff will be present in an informal setting to respond to questions from concerned individuals regarding the permit modification. At 7 p.m., immediately following the informational meeting, a public hearing will be held. The hearing will provide a format for individuals to make formal comments, which will be recorded by KDHE. KDHE will subsequently respond to all formal comments in writing.

After consideration of all formal comments received at the public hearing and all written comments received during the public notice period, KDHE will make a final decision on whether to issue the permit modification. Notice of the decision will be given to the applicant, to anyone who submitted written comments during the comment period, to those who commented during the public hearing, and to those who requested notice of the final permit decision.

A public hearing will be conducted at 9 a.m. Thursday, September 13, in the offices of the Kansas Development Finance Authority, Suite 1000, Jayhawk Tower, 700 S.W. Jackson, Topeka, on the proposal for the Kansas Development Finance Authority to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the respective borrower listed below (who will be the owner and operator of the project) to finance the cost in the amount of the bond of acquiring the project or for the purpose of refunding a bond previously issued to finance the project. The project shall be located as shown:

Project No. 000508—Maximum Principal Amount: $154,000. Owner/Operator: Stephen A. and Vera May Gannaway. Description: Acquisition of 35 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes. The project is located at the Northeast Quarter of the Northeast Quarter of Section 17, Township 15, Range 20 in Douglas County, Kansas, at 95 E. 1600 Road, Baldwin City.

The bond, when issued, will be a limited obligation of the Kansas Development Finance Authority and will not constitute a general obligation or indebtedness of the State of Kansas or any political subdivision thereof, including the Authority, nor will it be an indebtedness for which the faith and credit and taxing powers of the State of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

Any individual affected by the project may, at or prior to the hearing, file a written request with the Authority that a local hearing be held on the proposal to issue a bond to finance said project. A local hearing, if requested, would be conducted in the county where the project in question is located.

Real Estate Commission

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 9:30 a.m. Thursday, November 8, in the Kansas Real Estate Commission’s conference room, Three Townsite Plaza, Suite 200, 120 S.E. 6th Ave., Topeka, to consider the adoption of a proposed change in an existing regulation of the Kansas Real Estate Commission.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to the hearing to Sherry C. Diel, Executive Director, Kansas Real Estate Commission, Three Townsite Plaza, Suite 200, 120 S.E. 6th Ave., Topeka, 66603-3511. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulation during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Brenda Block at (785) 296-3411 or the Kansas Relay Center at 1-800-766-3777.

This regulation is proposed for adoption on a permanent basis. The following is a summary of the proposed regulation and its economic impact:

K.A.R. 86-1-10. Approval of courses of instruction; procedure. This amendment authorizes the use of an open-book examination as a means of certifying completion of a correspondence or home study program course if a passing score of at least 90 percent is obtained. The passing score for a closed-book, proctored examination remains at 70 percent.

The commission does not anticipate any fiscal impact will be sustained by the commission, other governmental agencies, prospective or current licensees, or members of the public due to the proposed amendment. It is possible that prospective or current real estate licensees may save the cost of travelling to a course where a proctored, closed-book examination is given, but the commission is unable to estimate the amount of the potential savings to prospective or current licensees.

Copies of the regulation and its economic impact statement may be obtained by contacting Brenda Block.
