**State of Kansas  
Department of Health  
and Environment  
Request for Comments**

The Kansas Department of Health and Environment received a permit modification application from Deffenbaugh Industries, Inc. to increase the permitted site's disposal capacity from 73 million cubic yards to 86 million cubic yards. The currently permitted area of the facility is approximately 850 acres with 409 acres permitted for disposal of solid waste. The disposal site was first subject to the state permitting process in 1978 when KDHE issued a municipal solid waste disposal permit for the site. Phase 1 was the first permitted area, and acreage to the east of this Phase 1 area housed facility offices and related structures. The proposed expansion, Phase 1 Modification, is to be located in this area where the offices and other structures no longer exist, and will overlap past disposal phases on the east, south and west.

Since 1996, disposal of municipal solid waste at this site has only been authorized in composite-lined disposal cells. Composite liner systems are constructed on a firm foundation including two essential components: a geomembrane (plastic) liner placed in intimate contact over a compacted soil liner. To achieve proper construction, two noteworthy elements are incorporated into the submitted design for the Phase 1 Modification area. The entire floor of the proposed Phase 1 Modification is to be cleared of all waste that had been placed pre-permit days to construct the composite liner on natural shale formation. Secondly, the side slopes are to be constructed on stable slopes where most pre-permit waste is to be removed and the liner placed on a firmly compacted foundation layer reinforced with a geogrid to create a snowshoe effect to bridge over any soft spots that may develop as the waste mass underneath the liner decomposes. The landfill is located in parts of Sections 1 and 12 of T12S, R23E, and Sections 6 and 7 of T12S, R24E in Johnson County at the southwest corner of the intersection of Hol-  
liday Drive and I-435.

The Johnson County Commission has certified that the expansion described herein is consistent with its solid waste management plan, and the city of Shawnee has certified that the expansion is consistent with local land use zoning requirements.

KDHE is providing public notice of the intent to modify Deffenbaugh Industries, Inc.'s current permit to allow the expansion described herein. However, a final decision to modify the permit has not been made, and KDHE will consider information gathered during the public comment period before making a final decision. A copy of the administrative record, which includes the Engineering Report and permit application, engineering drawings, draft permit and other information with respect to this permit action, will be available for public review from November 26-January 14, during normal business hours, at the following locations:

In addition, an informational meeting and public hearing will be held in conjunction with the public comment period January 11 at the Shawnee Civic Centre, 13817 Johnson Drive, Shawnee. The informational meeting will begin at 6 p.m., where individuals can ask KDHE personnel questions regarding the landfill in an informal setting. At 7 p.m., immediately following the informational meeting, a public hearing will be conducted to provide a format for individuals to make formal comments, which will be recorded by KDHE. KDHE will subsequently respond to all formal comments in writing.

Anyone wishing to comment on the proposed facility should submit written statements by 5 p.m. January 14 to Sam Sunderraj of KDHE at the address listed above, via facsimile to (785) 296-1592, or via e-mail to ssunderraj@kdheks.gov. Comments that are postmarked by January 14 and received within one week thereafter also will be considered.

After consideration of all the written comments received during the public notice period, KDHE will make a final decision on whether to issue the permit modification. Notice of the decision will be given to the applicant, to anyone who submitted written comments during the comment period, and to those who requested notice of the final permit decision.

### Governmental Ethics Commission

#### Opinion No. 2010-06

Written November 16, 2010, to Francis E. Meisenheimer, Kingman County Counselor, Kingman.

This opinion is in response to your letter of November 5, 2010 in which you request an opinion from the Kansas Governmental Ethics Commission concerning a possible conflict of interest by the members of the Board of County Commissioners of Kingman County, Kansas, pursuant to K.S.A. 75-4304 and/or K.S.A. 75-4305. We note at the outset that the Commission's jurisdiction concerning your question is limited to K.S.A. 75-4301 et seq., and whether some other statutory system, common law theory or agency rule or regulation applies to your inquiry is not covered by this opinion.

#### Factual Statement:

We understand that you have requested this opinion in your capacity as Kingman County Counselor. You have advised the Commission that you have three County Commissioners with a possible conflict of interest in a proposed Special Use Permit for a British Petroleum (BP) Wind Farm Project located in part in Kingman County. The request for a Special Use Permit will be heard by the Kingman County Zoning Board which will make recommendations to the County Commission for approval or denial of the Special Use Permit.

You present possible conflict of interest issues for each Commissioner as follows:

1. One Commissioner owns real estate in Kingman County which is leased to BP for wind farm use. This land is in the area expected to be developed for the current

project. The Commissioner will potentially receive lease payments for equipment placement. He has previously received lease payments.

2. The second Commissioner and/or his immediate family owns real estate in Kingman County which is leased to BP for wind farm use. He has previously received lease payments. His real estate is not anticipated to be in the proposed project area.

3. The third Commissioner is employed by a title company that may be requested to perform title work for BP for compensation.

#### Questions:

1. Under K.S.A. 75-4304, does the approval or disapproval of a Special Use Permit for development of a British Petroleum Wind Farm Project in Kingman County present a conflict of interest for any of the three Kingman County Commissioners?

2. Are the provisions of K.S.A. 75-4305 applicable to the three Kingman County Commissioners?

#### Opinion:

K.S.A. 75-4304 (a) states "No local governmental officer or employee shall, in the capacity of such an officer or employee, **make or participate in the making of a contract** with any person or business by which the officer or employee is employed or in whose business the officer or employee has a substantial interest." (Emphasis added)

Because the approval of the Special Use Permit is legislative in nature and does not involve the "making of a contract," K.S.A. 75-4304 does not prohibit any of the three Commissioners from voting on the permit. The Commission has consistently held that K.S.A. 75-4304 does not generally cover legislative or administrative decisions. (See Commission Opinions 2008-11, 2003-24, 1999-51 and 1999-05.)

K.S.A. 75-4305 (a) would apply and requires disclosure by a local government official before participating in actions **other than contracts** which may affect his or her private business interests. That statute states:

Any local governmental officer or employee who has not filed a disclosure of substantial interests shall, before acting upon any matter which will affect any business in which the officer or employee has a substantial interest, file a written report of the nature of the interest with the county election officer of the county in which is located all or the largest geographical part of the officer's or employee's governmental subdivision.

Once the Kingman County Commissioners have filed the appropriate Statements of Substantial Interests, they will have complied with the disclosure requirements of K.S.A. 75-4305(a) and may participate in discussions and vote on the approval or disapproval of the British Petroleum's application for a Special Use Permit.
